# COAST MAY GET DIRIGIBLE BASE

Army Asks Congress Provide \$5,000,000 Fund

Shores Logical Site for New Hangar

Stable Winds and Lightning Absence Factor

WASHINGTON, Jan. 28. (AP)—The War Department took the first step today toward establishment of a base for lighter-than-air craft on the Pacific Coast with a proposal to Congress by Secretary of the War, William D. Clegg, that \$5,000,000 be appropriated for such an air field. The location of the air field would be decided by a board of navy officers, Secretary Wilbur said, discussing the proposal, and a tract of 1000 acres would be required. The action follows the letting of contracts by the government last fall for construction of two new dirigibles for the Navy and recalls the statement made by Assistant Secretary Wilbur, in which he said a dirigible air base is necessary to complement the Lakehurst field in New Jersey for lighter-than-air craft. The opinion was expressed that the Pacific Coast was the logical place for the new base. The department has received several offers of land in that section, some of which amount to almost a gift to the government. Meteorological conditions will have an important bearing on the ultimate selection of the site, this type of aircraft being especially dependent on stable air currents and the absence of thunderstorms.

**SON TO MEET FATHERS**

YUENING, Jan. 28.—Plans are made for the annual father-and-son banquet and meeting that will be held here Friday, February 8, at the Community Church. A program will follow the dinner, to include a lightening contest by Boy Scouts. Boys in this community have been invited to attend the banquet and bring a boy, his own, if he has one, or somebody else's.

# TROTSKY UNDER RED GUARD

Former Soviet War Minister Bound for Moscow to be Tried by Agents of Stalin

(Copyright, 1929, by the Chicago Tribune)

RIGA, Jan. 28. (Exclusive)—Leon Trotsky, former Soviet Russia's Minister of War and his wife and son are being brought to Moscow in a special car under a heavy police guard. According to a report circulating among government officials, Dictator Stalin intends to place Trotsky on trial on a charge of attempting to organize another revolution in Russia.

Cheka agents have obtained several letters from Mr. Trotsky addressed to friends holding important posts in the red army, ordering them to prepare a coup which would place him in control of the Communist destinies. Other letters addressed to friends holding key positions in the Soviet industries order strikes and demonstrations against the Stalin regime.

On Friday night a special train of twelve cars left Moscow for Siberia carrying 200 Trotsky adherents. Other trains will be dispatched this week. Trotsky supporters arrested in other cities are being concentrated in Lubianka prison at Moscow.

According to the Moscow press, Stalin is making a clean-up of all the opposition. Not only the left, or Trotsky group, but also the right opposition group are being arrested and exiled. The latest arrests leave Trotsky with few friends in influential posts either in the Communist party, the Communist international or the Soviet government.

**MAD SNIPER SUBDUED BY TEAR BOMBS**

Stockton Man Fires at Passing Cars from Window of Room

STOCKTON, Jan. 28. (AP)—An armed madman who was identified as Juan Lonsages, 29 years of age, engaged in sniping operations by firing from the window of his room today in downtown Stockton, and before he was subdued police and deputy sheriffs were forced to call tear bombs into play.

After tearing the paper and lath from the wall in his room and tossing money into the street Lonsages opened fire. The shots struck four automobiles and the clothing of Policeman Walter MacLachlan, but he was unharmed.

The disturber was knocked unconscious when one of the bombs thrown into the room struck him on the head.

He was taken to a hospital.

**NUDE CULT CHIEF GETS COLD BATH**

Police Raid Doukhobor Lair With Tear Gas and Chuck Leader Out in Snow

GRAND FORKS (B. C.) Jan. 28. (AP)—Ten Doukhobors were arrested at their colony near here today, but only after a wild melee in which police had to use considerable force and tear gas sprayers, and the unclad Doukhobor leader had to be dragged outside into the snow.

Two of the arrests were made in connection with the disturbance last week when a small army of naked Doukhobors forced two officers to flee when the latter attempted to arrest two of the colonists' number. The other eight were arrested for their part in today's affray.

**Three Children Victims of Fire**

FALL RIVER (Mass.) Jan. 28. (AP)—Three children of Mrs. Mary Massa died of suffocation and the mother was probably fatally burned when fire destroyed their home in a three-tenement house here today. All had been trapped on the third floor with the only exit blocked by fire.

The three children were: Irene, 5 years of age; Angelina, 4, and Laura, 3. Arthur Massa, the husband and father, was absent at work. The family resided on the third floor of the three-story wooden building. Explosion of an oil stove on the first floor started the fire.

**Comedy Star to Marry Lord**

NEW YORK, Jan. 28. (AP)—"Miss June," English musical comedy actress, today announced her engagement to Lord Inverclyde of London. Previous reports of her engagement had been denied by the actress, who appeared in a New York production this winter.

The wedding will take place in London in March. The actress, whose name is June Howard-Tripp but who uses only her first name for stage purposes, will sail on the Aquatania Friday.

**Ex-Pastor Fined in Libel Case**

NEWARK (N. J.) Jan. 28. (AP)—Rev. Elmo L. Bateman, deposed pastor of Hilton Christian Church, today was sentenced to pay a fine of \$250 for criminal libel in circulating a false oath attributed to the Knights of Columbus during the recent Presidential campaign.

Sentence was imposed by Judge Van Riper, who told the clergyman he stood convicted of "the meanest type of crime."

# ROCKEFELLER CLAIMS VOTES

Victory Declared Sure in Battle of Proxies

Stewart's Campaign Manager Expresses Doubt

Bitterest Struggle in Oil History Nears Crises

NEW YORK, Jan. 28. (Exclusive)—John D. Rockefeller, Jr., apparently has won his fight to oust Col. Robert W. Stewart from his position as chairman of the board of Standard Oil Company of Indiana.

This was indicated tonight when Thomas M. Debevoise, official representative of Mr. Rockefeller in the battle for proxies to control the annual meeting March 7, next, asserted, "We now feel confident of having enough proxies to control the election. We now are bending our energies to obtaining as many shareholders as possible for our side, for we are anxious to lead in number of votes, as well as volume of shareholdings."

Mr. Debevoise declined to state how the requisite number of votes had been obtained, or who owned the principal blocks of stock for which the Rockefeller trustees hold proxies. According to a previous statement by Mr. Debevoise at least 90 per cent of the stock of Standard of Indiana is expected to be voted at the annual meeting, and nothing less than 45 or 46 per cent could be construed as "control."

**ONLY DANGER**

Should nothing unexpected happen the apparent victory of the Rockefeller forces means that John D. Rockefeller, Jr., will be able to make good his boast that he would make Col. Stewart retire. The quarrel between the two industrial leaders is a result of the Continental Trading Corporation inquiry in which Col. Stewart defied the Senate, then made statements which resulted in his trial for perjury. The trial ended in his acquittal.

Only one danger lies ahead for the Rockefeller forces, assuming they now hold enough proxies to control the meeting: corporation laws provide that a proxy once turned over to a trustee may later be turned over to another trustee at any time before the corporation meeting. The proxy with the latest date is the one judged to be official in the same manner that a will with the latest date is the one which bequeathes an estate.

**DEBEVOISE DOUBTFUL**

Great surprise and doubt was shown by George K. Bowden, proxy campaign representative of Col. Stewart, when he was told of the statement by Mr. Debevoise. "I don't believe it," said Mr. Bowden. "Col. Stewart's prospects are brightening every day and only today there was a new definite statement that the colonel is not going to retire. I don't see how it is possible for the Rockefeller group to have that much stock. It should be remembered that there are 9,232,000 shares of stock divided among 88,000 shareholders. We already are assured of the votes of the majority of share holders for Col. Stewart. Although the Rockefeller group hold some enormous blocks it would be necessary for them to get the enormous amount of stock now with brokers to obtain the necessary 45 per cent. This would be impossible before March 5, the date of record."

**BITTEREST BATTLE**

The Rockefeller-Stewart fight has been one of the bitterest in American history. The men were friends until Col. Stewart's name was dragged into the Federal expose. At that time Mr. Rockefeller said Col. Stewart had given him his promise to retire. This promise, according to Mr. Rockefeller, Col. Stewart failed to keep, as a result of which Mr. Rockefeller started his campaign to oust Col. Stewart at the coming meeting as "a person no longer fit for leadership."

**Piedmont Zone Law Held Void**

SAN FRANCISCO, Jan. 28. (Exclusive)—The exclusive residential standing of Piedmont, East Bay city, was shattered today by a decision of the District Court of Appeals which held the city's zoning ordinance null and void.

The ruling was made on an appeal in the case of Jessie E. Wickham, who the lower court denied permission to open a business enterprise.

**Sandino Breaks With His Envoy**

TEGUCIGALPA (Honduras) Jan. 28. (AP)—Augusto Sandino, Nicaraguan rebel leader, has severed relations with Froylan Turcios, hitherto his representative outside of Nicaragua.

A letter was delivered to Turcios by special messenger today under date of the 7th inst. announcing the break.

**Truce on Gas Prices Fails**

SAN FRANCISCO, Jan. 28. (Exclusive)—As one set of conferences failed today to bring agreement between opposing factions in the Bay District's gasoline price war, another series was arranged.

Meanwhile most service stations sold at 18 cents, most garages at 17, many independents as low as 15, and the company-operated stations of the major organizations at 21 cents.

**FAMED BIOLOGIST DIES**

BELMONT (Mass.) Jan. 28. (AP)—William Lyman Underwood, 64 years of age, widely known in the field of natural history, died here today after a long illness. For many years he was a lecturer in the biology department at the Massachusetts Institute of Technology.

## Coolidge Declares Budget Success In Final Plea For Economy

## PRESIDENT SKETCHES HARD FIGHT AGAINST DEFICIT Warns That Constant Vigil Against Waste Needed to Keep Up Nation's Prosperity

(Continued from First Page)

percent in the income of the nation would produce a deficit in our present budget.

## COSTS MOUNT RAPIDLY

The cost of State and local governments are rapidly mounting. From \$2,900,000,000 in 1921 the National Industrial Conference Board estimates that they reached \$7,931,000,000 in 1927. This is such a heavy drain on the earnings of the people that it is the greatest menace to the continuance of prosperity. It is a red flag warning us of the danger of depression and a repetition of the disaster which overtook the country in the closing days of 1920. It is a warning that should be heeded by every one entrusted with the expenditure of appropriation of public funds. It is the reason that further commitments by the national government for any new projects not absolutely necessary should be faithfully resisted.

## RECALLS DEPRESSION

Mr. Coolidge outlined the conditions he said had been prevalent when the budget system was instituted, enumerating depression in business, declining wages, unemployment, lack of markets, and the low price of securities, including government bonds.

While not asserting "that action by the national government deserves all the credit for the rapid restoration of the country's business from the great depression of 1921 or for the steady progress which has since taken place," the President declared that "unquestionably, however, wise governmental policies, and particularly wise economy in government expenditures with a steady reduction of the national debt have had a dominant influence."

## EMPLOYEES PRAISED

Director Lord, too, praised governmental employees generally for their co-operation in making a success of the budget system. A large part of his address was devoted to an account of the battle against a threatened deficit in the current fiscal year.

"Every year since the installation of the budget system," he said, "has been a fighting year, but this year we are making the supreme fight of our history."

Expressing an expectation for increased expenditures in future years, he declared that "with the growth of the country new important projects will present themselves calling for more money from the treasury, and no matter how great the revenues, unless they are carefully controlled and wisely directed into channels of useful and necessary purposes, burdensome additional taxes, or inability to carry on necessary constructive work will result."

In conclusion, Gen. Lord praised President Coolidge as "the inspiration of our thrift crusade," asserting that the Chief Executive had vitalized it and given it human interest.

## TEXT OF ADDRESS

The text of the President's address follows:

Members of the Government's Business Organization:

The present fiscal year will bring to a close eight years of conducting the finances of the government of the United States under the budget system. It was put into operation to save the country from economic disaster. It has been fully justified by the results. In the first instance, the President, of course, is responsible for the direction of the system. In the second place, that responsibility is shared with the Congress in making appropriations. In the next place, the responsibility for efficient expenditures rests with the heads of the various departments. But in the final analysis, success could have been achieved only by the loyal co-operation and faithful service of the great rank and file of the government personnel. To that great body, of which you are the representatives, the people owe a debt of gratitude, which I especially wish to acknowledge at this last budget meeting of my administration. Without their devotion to the cause of constructive government, we could have done nothing. With it we have been able to do everything. The victory has been their victory, and the praise should be their praise.

When we began the task in June, 1921, of reconstructing our public finances, it looked almost impossible of accomplishment. The entire government structure was permeated with extravagance. The expenditures for that fiscal year, exclusive of debt reduction, were about \$5,000,000,000. The interest charge alone was more than \$1,000,000,000, and our outstanding indebtedness was nearly \$24,000,000,000. The business of the country was prostrate. Its different branches of agriculture, commerce, banking, manufacturing and transportation were suffering from severe depression. Employment was difficult to secure. Wages were declining. Five million people were out of work. The price of securities, of government bonds, was very low. It was difficult to find any market for commodities. Confidence in our entire economic structure had been shaken. Progress had stopped.

It is easy to see what the condition of the people would be under such circumstances. Those who had property, even though it was much diminished in value, could take care of themselves, as they always can. But to those who were carrying on business with borrowed capital and had outstanding notes and mortgages there seemed nothing ahead but ruin. Wages were falling and families were faced with want and misery. The cause of this distress was not difficult to ascertain. The country had been living beyond its means. It had been spending much more than it was earning, which meant that it had been using up the capital. The savings of previous years were being exhausted, principally through government extravagance.

This was not a pleasant picture

to behold. If relief were possible, those who were able to provide it could well afford to be charged with considering nothing but the material side of life, with advocating a penurious and cheseparing policy, and with neglecting to supply the public needs. If a remedy would be found, when it was into operation business would revive, profits would increase, employment would be plentiful, wages would be good, the distress of the people would be relieved, and a general condition of contentment and prosperity would prevail. What, however, was the remedy? It was against those who had labored to secure this result, the satisfactory condition of the country would be a sufficient answer and a sufficient reward.

The evils and abuses of government extravagance were perfectly apparent. It was believed, and as experience has demonstrated, correctly believed, that the distress of the country would be relieved if government extravagance ceased. It was for this purpose that the radical and revolutionary system was adopted of centralizing in the President the primary authority for the recommendation of all departmental estimates and establishing for his information and advice the Bureau of the Budget.

## CHANGE WROUGHT

Seemingly without effort, but actually by hard and effective work, the change was wrought. Each of the succeeding years brought an ever-increasing improvement in the business of government. Expenditures diminished until 1927 when they reached a point below the \$3,000,000,000 mark. This was \$2,000,000,000 below 1921. Billions were cut from the public debt with a large saving of interest. The first tax reduction came in November, 1921, and was followed by three succeeding reductions. Funds were saved to meet the cost of our much-needed public improvements, which had been in abeyance during the war period. Short-time notes and long-time bonds were paid off and refunded at lower rates.

Working in that spirit which forges itself in time of need the executive and legislative branches of the government, with the backing of the people, have inserted a golden page in our history. It fittingly portrays that peace hath its victories no less than war. In the short period of seven and one-half years the public debt has been reduced \$2,967,000,000. The total saving in interest alone from this and refunding operations is \$963,000,000. Four reductions in taxes have returned to the people approximately \$2,000,000,000 a year which would have been required had the Revenue Act of 1918 remained in force. Two and one-half million people have been entirely relieved of all Federal taxation.

## DEPARTMENTS WELDED

One of the first essentials in the work of making the Federal government a real business organization was the welding of the various departments and independent establishments into a harmonious, efficient concern. We found forty-three independent departments and establishments each operating under its own customs and rules, utterly regardless of the existence of other departments which were parts of the same great establishment, the United States of America. There was little community of thought or harmony of action. Deep-seated hostility between certain government agencies existed. That the national government, ought to be one entity responsible for the happiness of 120,000,000 of people was entirely overlooked in the exclusive devotion of groups of Federal officials and employees to one particular subordinate department. This same obsession often characterized the relation between bureaus in the same department. Heroic effort was needed to substitute national loyalty for department and bureau loyalty. Efficiency and economy in operation were hopeless under such conditions. The situation called for a revolution in the attitude of government agencies toward each other. Exclusive devotion to their subordinate even though important departments must give place to loyalty to the whole government. To effect this great transformation a wide co-ordinating plan was put into effect. Representatives from the various departments and establishments were called together and organized into effective committees and boards to simplify and unify procedures and eliminate tortuous, wasteful and unbusinesslike methods. In this way all the major activities of the government were studied and harmonized by the efforts of our own personnel. Out from this study and effort sprang a business organization that compares favorably with like establishments in the business world in efficiency and unified control. Harmonious co-operation has won.

## CONFUSION EXISTED

In pre-budget days not a single administrative form indicated there was such a thing as a national government. The several departments had their own business forms in varying and confusing multiplicity. Today we have thirty-eight Federal forms displacing the many hundred that served to confuse business and add to the cost of government. Not a single specification contributed to good government business. Today we have 802 standardized specifications which govern in large part the entire field of Federal requirements. We are using one uniform government lease in place of several hundreds of departmental leases, while uniform construction and supply contracts in connection with our standardized specifications are contributing daily to good business and material saving. Our great real estate and rental interests, our hospitalization, our buying, selling, and printing, our patent interests, and office methods are subject to the same careful study and supervision. Out in the field we have our area coordinators and our 280 Federal business associations with sixty-three more in the making. These unique government agencies are spreading

the gospel of efficient government economically administered. They are our most trenchant exponents of co-operation. The intangible savings resulting from this co-ordinating work mounts into millions yearly. The work is not spectacular, but it is the very foundation of good business. I believe that the Federal government today is the best-conducted big business in the world. To these faithful workers in our co-ordinating agencies, in Washington and elsewhere, the country owes a great debt of gratitude. This picture of widespread commitment to good government throughout the service—and extravagant government is not good government—is most inspiring and encouraging. We have demonstrated that saving results from efficiency, and efficiency comes from saving.

## PROSPERITY RESTORED

Largely because of such work as this, less than two years from the time we began our point-to-point march, the country was very generally restored to normal conditions. From that time on there has been an upward swing, broken only by short static periods or slight temporary recessions. The closing months of 1928 and the opening months of 1929 have been years of industry and commerce at the highest point ever attained in time of peace.

In order to understand more clearly what the effect of these efforts has been on the country, it is only necessary to compare some of the major economic factors of 1929 with those of 1921. The output of our factories increased during that interval nearly 60 per cent; in some cases, such as iron and steel, the increase was more than doubled. The production of the mining industries as a group was at least 50 per cent greater than in 1921. The construction of new buildings was much more than twice as great in 1928 as in 1921.

## ADVANCE NOTABLE

The advance was especially notable and gratifying in the building of new schools. Check payments outside of New York City, where the volume is much affected by stock-exchange transactions, have increased by about 87 per cent over 1921. Railway traffic has been about one-third greater than in the earlier year and has been carried on with greater efficiency and dispatch. The number of automobiles registered is now nearly three times as great as at the beginning of 1921 and the number of motor vehicles factored during 1928 was more than three times as great as during 1921. Electric power production last year was considerably more than double what it was seven years before. From practically nothing, the business of radio broadcasting has become enormous, and the number of radio-receiving sets produced exceeds 13,000,000. The burdens of our housewives have been immeasurably lightened and lives broadened by the introduction of numerous electrical conveniences and devices, most of which were unknown a few years ago.

## RESOURCES INCREASED

The extent that the financial resources of our citizens have increased is strikingly apparent. Savings deposits rose from \$16,500,000,000 at the end of the fiscal year 1921 to more than \$29,000,000,000 on June 30, 1928. Between 1921 and 1927 the amount of life insurance in force very nearly doubled, and the total of such protection came to exceed \$87,000,000,000. The assets of building and loan associations have risen from less than \$2,900,000,000 in 1921 to more than \$7,175,000,000 in 1927.

## MORE EMPLOYED

With all our increase in production, the numbers of persons employed in several of our major activities have, apart from the sharp recovery after the depression of 1921, tended to decrease. At present there are fewer persons employed in manufactures, mining, railway transportation, and agriculture than in 1919, and the increase as compared with fifteen or twenty years ago is decidedly less when compared with the total population of the country. This change means the elimination of waste and is an evidence of advance in living standards. With the constantly rising efficiency and greater production per man the quantity of goods available per capita of the population has increased materially. It has also been possible to set some workers free to furnish us services distinguished from commodities—services of distribution, automobile travel, recreation, and amusement. By this means the whole number of persons employed has increased. I do not claim that action by the national government deserves all the credit for the steady restoration of our country's business from the great depression of 1921, or for the steady progress that has since taken place. Unquestionably, however, wise governmental policies, and particularly wise economy in government expenditures with steady reduction of the national debt, have had a dominant influence. The people gained confidence in themselves because of increasing confidence in their government. The reduction of taxation made possible by the cutting down of government expenditures left more income in the hands of the people, enabling them to increase their expenditures, and thereby not only to obtain greater comforts, but to add to the demand for commodities; it likewise helped to provide funds for building up the capital of the country and augmenting its productive capacity.

## TAXES REDUCED

The public needs have not been neglected. We have been able to embark upon a building program which for public works, hospitals, and our military housing requirements will cost nearly \$500,000,000. We are amortizing the cost of the adjusted service certificate fund of veterans of the World War and the retirement funds of our civil establishment at a cost of \$132,000,000 a year. Additional funds are being devoted to flood-control work and improvements made necessary by disasters which have overtaken our own States and adjoining territory. These expenditures could not have been financed without an econom-

ical administration. We could not have had tax reductions and the added expense of these necessary things without careful and orderly management of the business of government.

In this period of prosperity the purely business phases of administration, the intervention of commerce and the encouragement of industry have not been permitted to absorb our attention and mortgage our revenue to the extent that we have seen in the past. The duty and privilege providing for our veterans and employees who have need of relief have not been neglected. The Employees' Compensation Commission in 1928 paid out \$3,367,000 for the benefit of injured government employees, while the expenditure for pensions, compensation, insurance and care for the veterans of various wars exceeded in 1928 \$500,000,000. In all these fields of need the government has disbursed with generous hand, and its better things, and I am convinced that the people are being created throughout the country, eloquently deny the charge that we are only a commercial nation with no regard for anything but the pursuit of the dollar. During these last years there has been a steady growth of interest in the higher and better things, and I am convinced that the tone and character of the nation has constantly improved. We are giving the people better and better things, and the number of our citizens who are sleeping and waking, we are guard-

ed and protected and helped by the Federal government in more and more ways. This has been done under the restrictions of a policy of frugal economy, which have saved from waste the funds to make increased and better public service possible. You certainly have given abundant reason for being proud of our great government.

## MUCH TO DO

In spite of all these remarkable accomplishments, much yet remains to be done. We still have an enormous public debt of over \$17,000,000,000. In spite of all our efforts for economy, our great savings in interest, and our four reductions in taxes, the expense of the Federal government, during the last year are showing a tendency to increase. While much has been done in reducing the costs, by far the largest item of credit is due for preventing increased expenditures. A short time ago there were pending before the Congress, and seriously being advocated, bills which would have doubled our annual cost of government. At the present time committee bills are pending, and there are on the calendar in the Congress, bills which would cost more than \$1,000,000,000. Had not been a constant insistence upon a policy of rigid economy, many of these bills would have become law.

## ECONOMY NECESSARY

It would be a great mistake to suppose that we can continue our national prosperity with the attendant blessings which it confers upon the people, unless we continue to insist upon constructive economy in government. The margin between prosperity and depression is always very small. A decrease of less than 10 per cent in the income of the nation would produce a deficit in our present budget. The costs of State and local governments are rapidly mounting. From \$2,900,000,000 in 1921 the National Industrial Conference Board estimates that they reached \$7,931,000,000 in 1927. This is such a heavy drain on the earnings of the people that it is the greatest menace to the continuance

of prosperity. It is a red flag warning us of the danger of depression and a repetition of the disaster which overtook the country in the closing days of 1920. It is a warning that should be heeded by every one entrusted with the expenditure or appropriation of public funds. It is the reason that further commitments by the national government for any new projects not absolutely necessary should be faithfully resisted.

## GEN. LORD PRAISED

The results of economy which have meant so much to our own country, and indirectly to the world, could not have been successful without the Bureau of the Budget. It has been able in eight years to reduce estimates by \$2,614,000,000. The ability with which that bureau has been managed is due to its director. Since I have been President it has been under Gen. Lord. In all our meetings I have spoken of him in terms of commendation. He has continued to justify all I have ever said in his praise. I wish to take this last opportunity which I shall have during my administration publicly to express to him again my appreciation of the high character of his work and my increasing confidence in the budget system. No friend of sound government will ever consent to see it weakened. No one who admires fidelity and character in the public service will ever fail to be grateful for the services of Gen. Lord, who will now address you.

# Lina Cavalieri

## Celebrated Parisian Beauty Specialist

### urges soap of palm and olive oils to gain a lovely skin

Former celebrated opera star, now famous beauty expert, explains why washing the face correctly is a most important beauty treatment

Unmistakably Parisian, this entrance to Cavalieri's Salon de Beauté, at 61, Avenue Victor Emmanuel III. Here, on an afternoon, one mingles with an interesting and attractive group of women from America and the Continent.

LINA CAVALIERI has stepped off the operatic stage to share her beauty knowledge with the world's smartest women.

Enconced in her sumptuous salon, on the Avenue Victor Emmanuel III, Lina Cavalieri tells her patrons of a simple home beauty treatment. "I find," she says, "that a soap blended of palm and olive oils, by cleansing the pores thoroughly, leaves the skin in a smooth, healthy condition."

## What Cavalieri has found

Madame Cavalieri has made an extensive study of beauty methods both in Europe and America. "I am visited by some of the most famous beauties of two continents," she says. "In addition to my own beauty products, I always recommend them to use Palmolive Soap."

When dirt, dust, oil, powder and rouge get into the pores they are choked up. To these poisonous secretions Cavalieri attributes blackheads, pimples, enlarged pores, blemishes.

Mme. Cavalieri feels that the unique lather of Palmolive frees those hardening masses of dirt and make-up and leaves the complexion soft and glowing.

## Discovered long ago by American specialists

This opinion has long been held by beauty specialists of prominence throughout the United States. They, too, recommend this famous twice-a-day treatment which Cavalieri suggests to her discriminating clientele:

With both hands make a bland lather of Palmolive Soap and warm water. For two minutes, massage this well into the skin. Then rinse, gradually cooling the water to icy temperature. For dry skin, a touch of cold cream. Oily skin is refreshed by an astringent lotion and dry cream before make-up is applied.

"In addition to my own beauty aids, I always recommend the soap blended of palm and olive oils. By cleansing the pores thoroughly it leaves the skin in a smooth, healthy condition."

Lina Cavalieri  
61, AVENUE VICTOR EMMANUEL III, PARIS

## All over the world specialists agree

Not only in America but in Vienna, Berlin, London, Rome—everywhere one finds the same approval and recommendation of this 2-minute beauty treatment. France has made Palmolive one of its two largest selling soaps... think of it, France the beauty dictator of two hemispheres. And in forty-eight other countries, of all soaps it is the choice, just as it is in the United States.

A priceless formula embodying the precious oils of palm and olive, famous since the days of Cleopatra for prolonging health and beauty. Retail Price 10c

## PERIL DOGS DYOTT PARTY'S TREK INTO WILDERNESS

### Rescuer Tells Story of Trip Across Pampas of Amazon in Search for Missing Explorer

Commander Dyott tells in the third of his articles comprising the story of his trip across the pampas of the Amazon, the story of the search for the missing explorer, Col. Fawcett, in the hostile Gajapo Indians.

BY G. M. DYOTT

(Copyright, 1929, by North American Newspaper Alliance)

NEW YORK, Jan. 28. (Exclusive)—Col. Fawcett left Bakari on Jan. 11, 1925, and nine days later sent back letters from a place called Dead Horse Camp. This was the last authentic news of him but it did not help us much because no one knew where Dead Horse Camp was.

When writing to the Royal Geographical Society he had discussed his plans to the extent of saying that on leaving Bakari he would strike north to the Parana River, and at a given point would turn east towards the Xingu. When we came to follow along his trail we found it turned off to the northeast and took an entirely different direction.

Twisted all askew in their hard struggle to exist during the six months when no rain falls. In the hills, valleys and ravines are trees of better proportions. They mark the water courses. Alongside the bigger rivers a belt of forest usually is found.

In all this vast sweeping country not a solitary white man lives. As far as human eyes can see and further there is not even a half-white inhabitant; only Indians living by themselves in the utmost simplicity—Bakaris, who cultivate the soil in a crude way and are quite peaceful.

### SERPENTS IN EDEN

Their enemies, the Gajapos, are more numerous. They are hunters and travel far in their quest for game. Fish, fowl or fowls—it makes little difference to them so long as they get it. From the head waters of the Parana northward for several hundred miles these dreaded slingers of clubs may be encountered. It is the Gajapos who prevent settlers entering the region.

It seems strange to think of these enormous spaces where nothing of any moment happens. Murders and atrocities unheard of are committed by the Indians without any newspaper featuring the events in glaring headlines. Prior to our arrival the Gajapos killed a number of Bakaris. This was too much for even their peaceful nature and they retaliated by killing fifty Gajapos. But who cares or bothers? One might as well squash a handful of ants.

### ROASTED AND FROZEN

Our party rode through the dismal wilderness hour after hour, day after day. Roasting by day and frozen stiff at night, when the thermometer would drop 40 deg. within a few hours. We must have presented a curious spectacle. Jack, with his long legs dangling on either side of a small mule, reading a novel as he went and Bill De Mello, the wireless expert, perched up on the back of another. It was the first time he had ever ridden one, but he got on famously and stayed on, too, which was more to the point.

### COVERING TRAIL

"I am not giving you any closer information as to locality because I want you to encourage any traces of an expedition inspired to follow our footsteps under the impression that it is an easy matter. It must be understood that in the face of it is a highly dangerous undertaking. For the moment no one else can venture into this menacing certain catastrophe. The country into which we were venturing with such light hearts is vast beyond belief. It is a land of bad and rocky. Nothing grows on the hills except coarse grass and a few miserable trees.

## Adventure Trail Beset with Unknown Dangers

Dyott Party Making Its Way to Amazon Headwaters  
(Photo copyright, 1929, by North American Newspaper Alliance)

rors of the jungle assumed exaggerated proportions in his simple brain. He was stuffed full of tales that would scare the life out of anyone who believed only one-quarter of them. He was a good cook, but a bad character. He never ceased complaining about his defenseless state and one evening spoke to me on the subject, pleading for more adequate protection against wild beasts, etc. I was adamant. He was the sort of fellow who would be reckless with a gun if he had one. Hence I saw to it that he was provided only with the usual large knife which is customary throughout South America. He continued to elaborate on the risks he was running and ended up by saying:

### HERO'S LAMENT

"I walk on foot through this dirty wilderness with only a miserable knife by my side to protect me. Nevertheless, if the patron does not mind if his cook gets killed, all right—I will travel thus."

Needless to say, it was "thus" that he traveled. The third day out he was greatly perturbed. We had barely started when far off on the side of a distant hill little curls of blue smoke were seen ascending heavenward. It was the bivouac of some wandering Indians. Such a sight caused us all a certain amount of concern. We expected to meet the Gajapo Indians, but we were anxious to postpone contact with them as long as possible, because they have a bad habit of slinging clubs at people, the idea being to break the legs of their enemies and then finish them off at leisure.

(In his next article Commander Dyott tells of reaching the Amazon watershed and preparations for the plunge into the jungle.)

## Mexican Mob in Attack on Vasconcelos

MEXICO CITY, Jan. 28. (AP)—A report from Guadalajara to Mexico City newspapers today says Jose Vasconcelos, a tentative candidate for the Presidency, and followers were stoned and hooded by a mob when they arrived here on a campaign tour.

Vasconcelos walked from the railroad station to his hotel surrounded by his followers. Attackers injured several of the followers, then threw smoke bombs and in conclusion tried to attack Vasconcelos with revolvers. Troops were forced to interfere. After the candidate reached the hotel the mob stoned the building, breaking windows.

## Arizona Road Bill Introduced

PHOENIX, Jan. 28. (AP)—Senator Betty of Santa Cruz county, today introduced a bill providing for a State bond issue of \$25,000,000, to be known as the State north, south, east and west highway paving fund. The bill provides that the fund shall be created by crediting to the special fund 50 per cent of the gasoline tax, and the State loan board is authorized under the bill to issue the bonds against this revenue. The bonds not to bear more than 4 per cent interest.

The highway provided for under the bill is a forty-foot bituminous pavement from Nogales, Tucson, Casa Grande and Phoenix to Prescott, Flagstaff, Cameron and Grand Canyon bridge road. This road to be named the north and south highway; from Yuma to Phoenix, thence to Globe and Duncan, this to be named the east and west highway.

## Gas in Chicago Cut to 15 Cents

CHICAGO, Jan. 28. (AP)—Gasoline prices will be reduced tomorrow in the territory served by the Standard Oil Company of Indiana, it was announced today.

The normal service-station price will be cut 2 cents a gallon and the tank-wagon price 1 cent. New prices in Chicago will be 15 cents a gallon at service stations and 14 cents from tank wagons.

Decrease was caused by a reduction in crude oil prices and "competitive conditions," the announcement said.

## LAST LINCOLN ESCORT DIES IN MAINE

LOVELL (Me.) Jan. 28. (AP)—William W. Durgin, 90 years of age, said to be the last survivor of the group of Union soldiers who acted as bodyguard and escort for the body of President Lincoln after his assassination in Washington in 1865, died here today. Durgin and his companions accompanied the body on the trip to Springfield, Ill., and followed it to the grave.

## MEXICO TAKES TROOPS FROM SOUTH BORDER

MEXICO CITY, Jan. 28. (AP)—The government today ordered the withdrawal of extra contingents of troops who have been guarding the border of Guatemala since the revolution in that country. The withdrawal order was issued in view of the re-establishment of normal conditions in Guatemala.

## INDIA PLANNING WAR ON REDS

### Viceroy Says Government to Offer Proposals

### Nonintervention Policy for Afghanistan Pledged

### Royal Group Appointed to Study Labor Issues

NEW DELHI (India) Jan. 28. (AP)—Lord Irwin, Viceroy of India, in the speech from the throne at the opening of the Assembly, today announced that the government has decided to introduce again proposals to deal with Communist agents from abroad, including a provision for the confiscation or control of remittances from Communist sources outside of India.

(A previously drawn-up public safety bill, rejected by one vote in the Assembly last year, provided for the removal from India of Communist agents who were not Indian or British subjects or subjects of the Indian states.)

The Viceroy said that the policy of the government will be scrupulous nonintervention in the disorders in Afghanistan. At the same time he expressed earnest hope for the early restoration of peace and order there so that India again may have on her northwest frontier a peaceful, strong and united country.

### TURKISH GOVERNOR AMONG FLU VICTIMS

CONSTANTINOPLE, Jan. 28. (AP)—Epidemic of influenza which has been sweeping Turkey is now centering in the historic city of Smyrna which so often has been visited by disaster. Latest advices state that 6000 cases have been reported, including the Governor and other officials.

### CHICAGO MERCHANT DIES

CHICAGO, Jan. 28. (AP)—Clyde G. Stevens, 47 years of age, vice-president of Charles A. Stevens & Bros. died yesterday. He was a son of John Stevens, one of the original members of the company.

## A DOCTOR'S ADVICE:

### GO LIGHT ON LAXATIVES!

Everyone needs a laxative AT TIMES. But there's no need for making it a HABIT. If you have the habit, you can be rid of it in thirty days. Or less! And this is how:

The next time you go to take any strong cathartic—don't. Instead, take a little cascara. That's not a vicious drug, but the bark of a tree. The laxative made with cascara couldn't harm a child. It is, in fact, the one cathartic many physicians will approve for children. Gentle as it is, cascara is just as thorough in cleansing the colon as the more powerful purges that actually sap a person's strength.

Proof that there's no habit from cascara begins the very day after taking. Instead of being clogged worse than ever,

the bowels are more inclined to move OF THEIR OWN ACCORD. You may have to take cascara several times to establish regularity. But the times you need this gentle stimulus grow further apart. And you NEVER had you must increase the amount.

Cascara's ideal form is the candy Cascaret that pleases any palate, and you'll find them at the first drug store you ask.

### CASCARETS

They Work While You Sleep!

### Keep Your Skin Young

Tedious treatments unnecessary! Just daily cleansing with Resinol Soap, and a touch of Resinol Ointment for the occasional pimple or roughness will keep most skins clear and smooth. The tonic odor of the soap tells you a store of the healthful properties it contains, and the ointment has been prescribed many years for skin troubles slight or serious. Begin this treatment today. At all drug stores. For free sample of each write, Dept. 43, Resinol, Baltimore, Md.

### Resinol

# "When a sweet tempts me, I light a Lucky Strike."

Rosalie Adele Nelson  
Rosalie Adele Nelson,  
The Original Lucky Poster Girl

"I'm a 'Lucky Girl' because I've found a new way to keep my figure trim. Whenever the desire for a sweet tempts me, I light up a Lucky Strike. It's remarkable how nicely the toasted flavor of Luckies satisfies me. Toasting has taken out all impurities—all that is left is the thrilling Lucky aroma. I certainly am lucky to be 'The Lucky Girl.'"

ROSALIE ADELE NELSON

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Thousands are doing it—men keep healthy and fit, women retain a trim figure.

Lucky Strike, the finest tobaccos, skilfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. Athletes, who must keep fit, testify that Luckies steady their nerves and do not harm their physical condition. That's why Luckies have always been the favorite of those men who want to keep in tip-top shape and realize the danger of overweight. That's why folks say: "It's good to smoke Luckies."

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say:—

"REACH FOR A LUCKY  
INSTEAD OF A SWEET."

# "It's toasted"

No Throat Irritation—No Cough.

Reach for a Lucky instead of a sweet.

WORK VISITS  
INDORE HOMEof Maharaja Gives  
Birth to GirlNancy Miller Stays at  
Osn ChateauMaharaja's Friends Knew  
of Expected Event

Jan. 28. (AP)—Maharaja of Indore, who was born in 1874, gave birth to a girl last Saturday night. Both the baby and the mother are doing well.

Only a few close friends knew of the event, although a report that the Maharaja expected a child was circulated last November. The utmost secrecy prevailed and at the chateau St. Germain, where the Maharaja and his wife were staying, all servants were forbidden to talk.

The Maharaja and Maharani had been much speculated upon as to whether the Maharaja would go to England or to the United States to stay in the quiet of a home where she could be guarded from the outside world.

The Maharani has been living at the chateau for some months with her husband, Sir Tukajai Rao, former ruler of Indore. She and the Maharaja were married last year by a Hindu ritual performed in Indore, India.

The little princess has not been named. City Hall officials are expected to announce the name tomorrow or Monday. There were others in the chateau with the Maharani when she was born, but she was not in accordance with Indian custom when she is 12 days old to travel she probably will go to the Riviera.

Very Severe Eczema on Baby's  
Cheeks. Healed by Cuticura.

"When baby was one month old eczema broke out in pimples on her cheeks. It itched and burned so badly that she scratched all the time. After scratching it formed blisters, and later wet, sore eruptions. It was very severe and she could not sleep. She was cross and fretful and I had to tie her hands to keep her from scratching. The trouble lasted four months. I tried a good many remedies but they did not do any good. I began using Cuticura Soap and Ointment and in three days could see an improvement, and in two weeks she was completely healed." (Signed) Mrs. Steve Slinka, Rt. 1, Beckett, Ohio, Nov. 17, 1928.

Get Cuticura Ointment 25 and 50c. Cuticura Soap, Sold Everywhere. Sample each free. Write: Cuticura Laboratories, Dept. H, Malden, Mass.

## BAPTISMAL RITES STRANGE

Nancy Miller's Baby to be Named on Thirteenth Day  
After Series of Hindu Ceremonies

The following dispatch describes the strange rites in connection with the naming of the child just born to the former Maharaja of Indore, now the wife of the Maharaja of Indore. The writer of the article, the Hindu Shantarakshya, represents as Dharmadikari or head priest of the Hindu Shantarakshya. Pandit Karandikar, who usually is in London, is now in Paris to perform the ceremonies.

BY PUNDIT VISHNU RAGHUNATH KARANDIKAR  
(Copyright, 1929, in all countries by North American Newspaper Alliance)  
PARIS, Jan. 28. (Exclusive)—My friend Dr. Gosavi, who has been the chief medical attendant of Their Highnesses the Maharajah Sir Tukajai and Maharani Sharmisthabai Saheba of Indore, ever since their marriage, telephoned me from Paris within a few minutes of the birth of their child, a daughter, Saturday.

"The Maharani Saheba (former Maharani of Indore) and the Maharajah are doing well," he said, and he asked me to come to Paris for the ceremonies to be performed in connection with the naming of the baby.

TAKE THIRTEEN DAYS  
These usually take twelve to thirteen days, the naming taking place on the twelfth day in the case of a son and on the thirteenth day in the case of a daughter.

On the fifth day the goddess of fate is worshiped, and her blessings and good wishes are asked. The next day the astrologer prepares the horoscope and it is then placed near the bed on a silver dish and worshiped. On the tenth day the mother and child are bathed and purified, and then they are allowed to leave the room.

PEACE HYMNS RECITED  
Throughout these ten days, peace hymns to the Vedas will be recited outside the room occupied by the Maharani. For this reason I am leaving immediately for St. Germain, where the former Maharajah has his chateau. The naming ceremony will take place Thursday, February 7, next, this being the thirteenth day, the baby being a girl.

This is the most important part of the whole ceremony. The family deity, Khandoba, seated on a white horse, will be worshiped, and the bel and bhandar used in that worship will be distributed. The relatives and friends of Their Highnesses have sent special presents to the Maharani Saheba and the young Princess, which will be offered to them at a durbar, when the baby first will be shown to the public. The ceremony will be held in the grand salon of the chateau.

COSTLY GIFTS SENT  
I am bearing with me costly gifts of silk and gold saris for the Maharani.

PRINCE SETS  
OUT TO SEE  
MINES AREA

Will Make Personal Study  
of Distress Conditions in  
Newcastle District

LONDON, Jan. 28. (AP)—After fulfilling an engagement in the Midlands today, the Prince of Wales returned to London this evening and then took the night train for Newcastle on the first stage of his tour through the distressed mining district.

The tour will be no picnic, for all day the snow has been falling in Northumberland and Durham and a sharp frost was reported tonight. Starting after breakfast tomorrow, the Prince intends to spend nine hours on an automobile trip over the coal fields, visiting probably fifty villages.

There will be no addresses, flag-waving or ceremonial welcomes. His itinerary is known only to himself and his secretary. The impromptu nature of the tour is based on the Prince's purpose to gain first-hand knowledge of actual conditions among the miners. He announced his visit will be to the villages where the distress is most severe, but officers on the spot declare they know "no more than the man in the moon" just where he will go.

At the conclusion of this tour, the Prince intends to make a similar tour through the South Wales mining districts. At the conclusion of his journey he intends immediately to make known results of his investigations to the public with appeal for public generosity in behalf of the miners.

Fascist Party  
Suspends Hero  
of World War

ROME, Jan. 28. (AP)—Commander Dario Vitali, insurance commissioner and hitherto considered one of the most outstanding Fascists, today was suspended "from all political activity" by Secretary Turati of the Fascist party. The laconic communique from the press office of the party gave no details.

The news created a mild sensation in Rome tonight, for the gold medal awarded Vitali for war-time valor is the equivalent of the United States Congressional Medal of Honor or the Victoria Cross of England. Premier Mussolini hitherto has pushed forward all Fascists who distinguished themselves during war time.

Following upon the resignation of Mario Giampoli as inspector of the Milan party last Wednesday a considerable shake-up in Fascist ranks seems to impend before the elections March 24.

Americans Safe  
in Chinese Riot

CHEFOO (Shantung, China) Jan. 28. (AP)—Disorders are reported from the region west of Chefoo, where Chinese troops mutinied last Friday and Saturday and ransacked towns along the countryside.

Reports assembled here by the Roy Webster state that all Americans in the region are safe. On Friday the mutinous troops looted Japanese and other shops and houses in Lungkow on Saturday they descended on Whanghsien. American missions and other American properties were not molested.

Court Refuses  
to Stay Noose

NEW ORLEANS, Jan. 28. (AP)—The Louisiana State Supreme Court today again refused to intervene in the hangings of Mrs. Ada Bonner LeBoeuf and Dr. Thomas E. Dreher, sentenced to die Friday at Franklin for slaying James Bonner, the woman's husband.

ACCOMPANIES BODY EAST  
PHOENIX, Jan. 28. (AP)—Chief Justice Lockwood of the Arizona Supreme Court was named today to accompany the body of J. C. Callaghan, Secretary of State, to Johnston, Pa., as official representative of the State.

TESTIMONY HITS  
OHIO OFFICIALSGovernor and Senator Held  
Brewery ProtectorsHigher-ups' Protested Raid,  
Dry Agent InformedState Treasurer on Trial in  
Conspiracy Case

COLUMBUS (O.) Jan. 28. (AP)—John F. Eckhart, acting assistant prohibition director, testified today in the trial of Bert B. Buckley, Ohio State Treasurer, on charges of conspiracy to violate the Federal prohibition law, that Buckley told him Gov. Cooper and Senator Fess had protested against a Federal raid on the Jackson Brewery Company at Cincinnati last October 5.

Eckhart was the first witness in the trial, which opened today. Buckley is charged with offering Eckhart money for advance information of brewery raids at Cincinnati.

Under questioning of United States Attorney Mau, the assistant prohibition director said Buckley told him the raid on the Jackson Brewery Company "created quite a storm in Cincinnati."

"The higher-ups," came to me," Eckhart quoted the State Treasurer as saying.

"Did he mention the higher-ups?" Mau asked.

"Yes, Myers Y. Cooper and Senator Fess," Eckhart replied. Cooper at that time was the Republican candidate for Governor.

The witness said the conversation took place in Buckley's office last October 8, after the Treasurer called him there. He testified that at a later meeting Buckley approached him with a proposition to arrange a "tip-off" on later raids on the Jackson company.

President by PlanBoard of Regents to Invite,  
Official Reports

LANSING, Jan. 28. (Exclusive)—Possibility that Calvin Coolidge may be offered the presidency of the University of Michigan to succeed Dr. Clarence Cook Little, resigned, was being discussed in capital circles today.

While Gov. Green was not willing to be quoted to the effect that an offer will be extended to the nation's present Executive, he admitted that he had heard reports to the effect that Coolidge is in the list of possibilities being considered by the Board of Regents of the university.

He voiced the opinion that it would be a great thing for the State and the school if the President could be induced to accept the post. He said, however, that he would take no part personally or in an executive capacity in extending the offer to Coolidge as the board has the exclusive right of naming the university head.

Secretary of State Haggerty was quoted in a Lansing newspaper to the effect that an invitation will be extended the President to assume the university position. While he could not be reached for confirmation of his reported statement, his deputy, Sidney A. Schulte, declared that he knew his chief to be favorable to the movement to obtain the services of the present White House occupant for the Michigan institution.

## Low fares—include berth &amp; meals!

WHY sacrifice your comfort even though you want to be economical—when it really isn't necessary! You can travel economically and yet travel comfortably—if you travel by water. Including berth and meals as they do, the low fares now in effect are really no higher than those for ordinary travel. For instance: San Francisco, as low as \$10.00; Portland, as low as \$26.00; Seattle, as low as \$32.00, with your berth and meals included. They are low—and yet impose no penalties!

He coughed  
...the Villain!

and the love scene had  
to be taken all over!

MADGE BELLAMY... Beautiful Fox star in her latest release, "Mother Knows Best."

Madge Bellamy explains the growing  
popularity of Old Golds in Hollywood

"The 'hero' in a movie may easily become the 'villain' if he coughs at the wrong time. A cough isn't nice at any time, but when it interrupts the taking of a movie scene, it's a calamity! Re-takes are costly!

"The high tension of movie work makes smoking a vital relaxation. But

we relax with OLD GOLDS. They're so smooth...as smooth as the polished manner of Adolphe Menjou, who himself is an OLD GOLD fan.

"While they're the most enjoyable of cigarettes, OLD GOLDS mean absolute 'fade-out' for throat-scratch and smoker's cough."

(SIGNED) Madge Bellamy

eat a chocolate, light an Old Gold, and enjoy both!

## MEXICAN QUOTA BILL COMING UP

House Committee Begins Debate Tomorrow

Decision Not Expected for Several Days

Senate Vote Due Today on Origins Act Delay

BY ROBERT B. ARMSTRONG  
"Times" Staff Representative  
WASHINGTON, Jan. 28. (Exclusive)—This week is expected to reveal what the present Congress, which comes to a conclusion March 4, next, is to do with pending Mexican restriction bills and other immigration legislation.  
The House Immigration Committee, where the Mexican controversy has centered, decided today to give serious consideration starting Wednesday, to the Box bill, which would place Mexico under the "2 per cent" quota act and reduce entries from that country from approximately 60,000 to a mere 1,200 a year.  
The bill is to be taken up with the idea of driving it to final action in committee, but it is not believed probable a vote will be taken Wednesday. The opinion of Chairman Johnson today is that several days will be taken up in general discussion and in reading the measure section by section for amendments. A number of changes are certain to be proposed, several, perhaps, by the chairman. Mr. Johnson announced a week ago he was drafting an omnibus immigration bill which would embrace the Mexican situation, permitting 20,000 entries from below the Rio Grande each year, and declared introduction of his bill would cause the Box proposal to be laid aside. However, the committee chairman said today he has been unable to whip his measure into completed form and does not know whether he will get it ready this session or not.

**POSTPONEMENT NOTE DUE**  
Although convinced that the Box bill is unsound and unworkable, especially when considered in the light of the present uncertainty as to whether the national origins provisions is to go into effect July 1 or again be postponed by Congress, Representative Johnson declined to say that he would oppose the Mexican exclusion bill in his committee. The Senate Immigration Committee is scheduled to vote tomorrow on the Box resolution postponing for another year from July 1, the operation of the national origins act. This act was passed in 1924 but has been held in abeyance ever since by a Congress which was not certain it wanted it made effective. Under national origins, immigration quotas would be based on the nativity of all persons in the United States with all censuses, including the first in 1790, being taken into consideration, rather than on the number of various nationals in this country under the 1890 census as under the present 2 per cent act. Roughly it would cut down immigration from Southern Europe and increase that from northern Europe, thus producing new blood held to be more assimilable in the American strain.

**DATA INCOMPLETE**  
Quotas under the national origins provision have been worked out for European nations but none ever have been called for in the case of Canada, Mexico and other countries on the Western Hemisphere and this is one of the weaknesses of the Box bill and its companion measure, the Harris bill, which now is pending before the Senate with a favorable report from the Senate committee behind it. If the Box-Harris proposal should be put through and national origins should be allowed to go into effect July 1 it is contended sufficient time would not be given for establishment of accurate quotas for Mexico and other nations on this hemisphere to which restriction was being applied for the first time.

Statistics on Mexican immigration are vague enough at the present time and one of the principal arguments of those opposing immediate and heavy restriction is that Congress should postpone action until reliable data are assembled.  
The Labor Department in its last annual report, practically upheld this contention, admitting that while it kept a fairly accurate check on Mexicans entering the United States it is not able to say how many returned or how many figuring in department tables were "walkovers" crossing and recrossing the border many times during the course of a year in pursuance of their regular occupations.

The two questions, Mexican restriction and national origins, are inextricably wound up together, especially in the Senate. A hot fight has been going on in the Senate committee with Senator Wm. Reed, Republican, of North Dakota, contending for postponement of the national origins clause, and Senator Reed, Republican, of Pennsylvania, leading the forces opposed to further delay.

**REED'S POSITION**  
Senator Reed's main interest is in stemming the influx from Mexico which, he asserts, is extending into the steel mills of the Pittsburgh district and taking jobs away from American workmen. He has been assisting Senator Harris, Democrat, of Georgia, in an attempt to maneuver the latter's bill before the Senate for a vote. If he loses in his effort to defeat further postponement of national origins, Reed is expected to redouble his efforts to clamp the lid on Mexico. In order to compromise with the interests fighting Mexican restriction the Pennsylvania has prepared an amendment which would permit entry of 25,000 Mexicans and Canadians each year for two years, provided the Secretary of Labor deemed they were needed. This is unacceptable to large employers of Mexicans in this country who point out that the Secretary of Labor and this or any other Cabinet would be apt to reflect the attitude of the American Federation of Labor and would use his authority to keep the Mexicans out.  
Senator Harris, in a brief statement today, blandly informed opponents of restriction that his proposed amendment is all they can expect in the way of modification of his bill. If there is to be a fight on the floor, he said, proponents of

## Review of Day in Congress

[By the Associated Press]  
The House decided today to take up the \$24,000,000 prohibition enforcement increase tomorrow.

Farm organizations asked the House Ways and Means Committee to increase agricultural duties.

The Senate was informed that President-elect Hoover supported the President's stand on the cruiser bill.

The House Immigration Committee was asked to approve a bill creating a \$100,000,000 loan fund for levee districts.

The House passed the Senate bill to increase by \$500,000 annually for five years the vocational education appropriation.

restriction will insist upon the bill as it stands.  
In his statement, Harris attempted to fasten sole responsibility for opposing his measure upon the sugar-bet industry of the Midwest. This is regarded as an attempt to center pressure on Senator Phelps, Republican, of Colorado, who is the most vigorous opponent to the Harris bill and who on one or two occasions has prevented Senate consideration of the legislation when it was reached on the consent calendar. Phelps reiterated today his determination to prevent action on the bill.  
Senators Harris and Reed and their supporters are waiting until the naval cruiser bill is out of the way to make their big drive. The cruisers probably will be voted on within the next two days and the test on Mexican restriction may be expected shortly after that.

## Glenn Counters Walsh Censure

WASHINGTON, Jan. 28. (AP)—The report of Senator Walsh, Democrat, Montana, censuring the Departments of the Interior and Justice, in connection with the renewal and subsequent cancellation of the Sinclair contract for Salt Creek royalty oil was countered today with a report by Senator Glenn, Republican, Illinois, upholding the department.  
With the two documents before it the Senate Lands Committee failed again to reach an agreement on the adoption of a report on its inquiry into the Sinclair contract. The committee will meet again Thursday.

## Enlistments in Army Improved

WASHINGTON, Jan. 28. (AP)—Intelligence tests are keeping unsuitable mental and psychopathic types of men out of the army. Of the 50,461 applicants for enlistment during 1927, the War Department said today \$422, or about 4 per cent, were rejected on account of inability to pass the intelligence tests.  
The results obtained in application of the tests, which were begun late in 1927, are considered by army officers as very satisfactory. Prior to their use it was almost impossible to detect unsuitable mental and psychopathic types before enlistment.

## Dill Holds Up Canal Survey

WASHINGTON, Jan. 28. (AP)—The Senate took up the Edge resolution for survey of a Nicaraguan canal route today but opposition by Senator Dill, Democrat, Washington, blocked a vote.  
Senator Dill argued the facilities of the Panama Canal were not now taxed and that the Nicaraguan plan was "just another excuse to keep the marines in Nicaragua."

## War Draft Plan Urged in House

WASHINGTON, Jan. 28. (AP)—A resolution was introduced today by Senator Reed, Republican, Pennsylvania, for the creation of a commission to investigate the advisability of legislation by which capital as well as men would be conscripted in time of war. The Senator announced he had introduced the resolution at the request of the American Legion.

## Gibson Ordered to Return Home

WASHINGTON, Jan. 28. (AP)—Hugh S. Gibson, American Ambassador to Belgium, has been instructed to return to Washington for a discussion of the attitude of the United States toward the various questions to be taken up at the meeting of the preliminary disarmament conference at Geneva, which is to begin April 15.

## Education Fund Increase Voted

WASHINGTON, Jan. 28. (AP)—The House today passed a Senate bill to provide a \$500,000 increase annually for five years in the authorization for vocational education. The measure goes back to the Senate for agreement to amendments.

**ENGINEER KILLS SELF**  
SAN FRANCISCO, Jan. 28. (AP)—Wilhelm K. Winterhiller, 60 years of age, widely known agricultural engineer and sugar-beet expert, shot and killed himself here today. He had suffered from a heart ailment for several months.

## SOLDIERS' HOME FUNDS SOUGHT

Coolidge Asks \$20,000,000 for Three Purposes

Sawtelle Would Receive \$64,400 as Share

Post Deficit and Oil Suits Also to be Covered

WASHINGTON, Jan. 28. (AP)—President Coolidge today recommended to Congress that approximately \$20,000,000 be made available to cover deficiency estimates of the Postoffice Department for 1929 to provide construction funds for the national homes for disabled volunteer soldiers and for expenses of the government oil lease litigation.

The postoffice estimates would include expenditures of \$15,000,000 for railroad transportation and mail messenger service.

The President recommended that \$1,414,820 be provided for 1929 and \$462,500, for 1929 as supplemental appropriations for the National Home for Disabled Volunteer Soldiers, to provide "additional amounts for personal services."

The estimates are intended to enable the board of managers of the national home to make adjustments in compensations to officers and employees. For 1929 the western branch, Leavenworth, Kan., would receive \$41,600 and the Pacific branch, Sawtelle, Cal., \$64,400. The 1929 estimate of \$1,414,820 would be apportioned to include western branch, \$131,200 and Pacific, \$184,000.

The oil-lease recommendation was for \$100,000 to "enable the Chief Executive to continue the litigation to cancel certain leases of oil lands and incidental contracts."

## FOREST FIRE FUND ALSO URGED

WASHINGTON, Jan. 28. (Exclusive)—Congress has before it today a supplemental budget recommendation from President Coolidge which included \$1,200,000 additional for activities of the Department of Agriculture in fighting forest fires during the fiscal year starting July 1.

Such an appropriation was sought unsuccessfully when the agricultural appropriation bill was in the process of preparation in House and Senate committees.

## Drainage Loan Bill Hearings Open in House

WASHINGTON, Jan. 28. (AP)—The House Irrigation Committee today opened hearings on the Smith bill to set up a \$100,000,000 revolving fund from which loans can be made to drainage or levee districts on alluvial or swamp lands to redeem obligations outstanding against them.

The money will be made available for loans to districts operating under the supervision of a State or its subdivisions. The loans will be noninterest bearing.

Chairman Smith said it is not expected that the bill would reach the House this session, but that the hearings will obviate the necessity of taking testimony at the next session.

Smith said that a similar measure has been introduced in the Senate by Senator Smoot, Republican, Utah, which will affect thirty-four States.

## THREE PASS POSTAL TEST

WASHINGTON, Jan. 28. (AP)—Francis H. Cochran, Clayton C. Troxel and Merner L. Schoenthal were certified today by Civil Service Commission as eligible for the postmasterhip of Riverside, Cal.

## AMERICAN TRAVELER SHY PAIR BUT HE RAISES ROYAL FLUSH

SOFTIA, Jan. 28. (Exclusive)—A thrifty American whose name could not be learned had the grand idea that he could beat the Turkish customs as the crack Orient Express on which he was riding sped toward the Turkish border the day before yesterday.

The idea was good, but the result was not, as he learned after he was forced to stop the train by pulling the emergency danger signal.

Train officials who investigated the pulling of the signal found the American in the Pullman washroom in difficulties.

This American seemed unwilling to pay the Turkish duty on a brand new suit he had purchased in Paris so he adjourned to the washroom

and flung his suit out of the window and started to don his new apparel. He discovered the coat and vest but there were no trousers in the package. The Yankee's modesty got the better of him and he decided to halt the train rather than walk through the car so scantily attired.

The railroad employees provided him with an old pair of trousers but the customs officials stuck him for the duty on a new suit.

**MAN, BROKE, ENDS LIFE**  
SAN LUIS OBISPO, Jan. 28. (AP)—Leaving a note saying he was "broke" but was not and never could be a "bum," Charles F. Gray, 56 years of age, of Colusa, committed suicide on the postoffice lawn here last midnight by shooting himself.

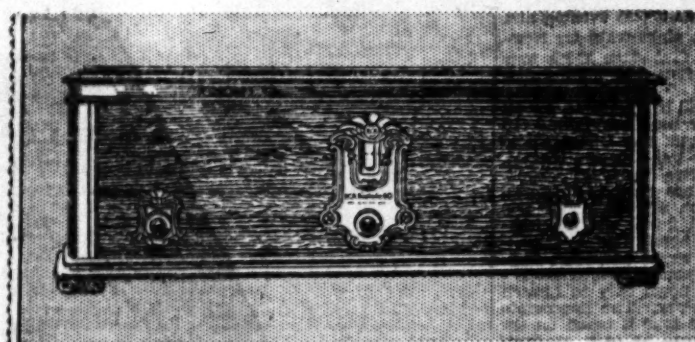

## Col. Lindbergh Fails to Appear

WASHINGTON, Jan. 28. (AP)—The House Postoffice Committee gathered today to hear testimony of Col. Charles A. Lindbergh on a bill to authorize the Postmaster-General to make contracts for transportation of air mail to foreign countries, but the colonel failed to appear.

Assistant Postmaster-General Glover explained that the flyer is planning to make the first flight from Miami, Fla., to Cristobal, Panama, within two weeks to open the Pan-American airways route between those cities. The committee ordered a favorable report on the measure.

# When buying a radio set it pays to get a genuine RCA Radiola

RCA RADIOLA 18—Most popular Radiola ever built. Simplified A. C. house-current operation. Remarkable range, capacity and fidelity of tone. \$95 (less Radiotrons)

RCA RADIOLA 60—Table model of the incomparable RCA Super-Heterodyne. Finest receiver of its type ever designed. Super-selective. Super-sensitive. A. C. house-current operation. \$147 (less Radiotrons)

THE two greatest electrical engineering organizations are associated with Radio Corporation of America in the design and manufacture of the RCA Radiola.

General Electric and Westinghouse bring to the Radiola a half century of experience in electrical development. Two hundred scientists and engineers in the laboratories of these companies cooperate in the making of radio instruments carrying the well-known RCA mark.

This unique combination of research genius and vast manufacturing resources has made possible the production of radio receivers, reproducers and accessories of the finest workmanship, at prices within reach of millions of homes.

Radiolas owe their great popularity to their wonderful performance, dependability and long life, and public recognition of what is back of the RCA mark.

When selecting a new radio set for the home, it's worth getting one that embodies all the world's knowledge of the radio art—and it pays to buy a genuine RCA Radiola.

# FEATURES OF THE NEW FORD

## Safety

ONE of the outstanding features of the new Ford is its mechanical, internal-expanding six-brake system.

This is unusually reliable and effective in action because the braking surfaces of all six brakes are fully enclosed. There is no possibility of mud, water, sand, road dirt or grease entering the brake mechanism or getting between the bands and drum and impairing brake performance.

The use of steel forgings wherever there is a possibility of wear in the chassis of the car, the sturdy steel body construction, balance, ease of operation and control and a Triplex shatter-proof glass windshield are other important safety features.

## Comfort

You have a feeling of mental comfort in driving the new Ford because you are sure of its mechanical reliability. No matter how long the trip or rough or devious the road-way, you know it will bring you safely, quickly to the journey's end.

Physically, too, you will feel fresh and relaxed in the new Ford because it is such a roomy, comfortable car. Seats are wide and deeply cushioned, with backs designed to conform to the curves of the body.

Even on comparatively rough stretches, there are no hard bumps or jolts, nor exag-

## SERVICE

"IT HAS always been our belief that a sale does not complete the transaction between us and the buyer, but establishes a new obligation on us to see that his car gives him service. We are as much interested in his economical operation of the car as he is in our economical manufacture of it.

"For that reason we have installed a system of controlled service to take care of all Ford car needs in an economical and improved manner. We wish all users of Ford cars to know what they are entitled to in this respect, so that they may readily avail themselves of this service."

*Henry Ford*

of Ford dealers, and close supervision of service are additional reasons for the economy of the new Ford.

The cost of new parts is also low because of the established Ford policy of doing business at a small margin of profit.

## Beauty

The new Ford is distinguished by its quiet simplicity of line and air of sturdy strength. Without being extreme, it has struck a new note in motor car designing. A particularly pleasing feature is a choice of beautiful colors in all body types without additional cost.

The upholstery is of woolen material, rich and luxurious, yet long-wearing. Fenders are heavy and gracefully contoured. Instrument panel—door handles—window lifts—interior trimming and finish—all reveal a quality of material and a careful workmanship unusual in a low-price car.

## Ease of Control

Another outstanding feature of the new Ford is its ease of operation and control.

The steering wheel answers to the touch of a finger. Gears shift silently, smoothly. Brakes take hold quickly, firmly even on rain-swept pavements. Quick acceleration and alert speed are especially appreciated in traffic and emergencies. A space little longer than the car itself is all you need for parking.

All of these things simplify the mechanics of motoring and add a great deal to the joy and comfort of motoring. Particularly to a woman, they mean driving without strain or fatigue.

## Smooth Speed

Everywhere you go, you note the alert, capable performance of the new Ford. You can judge its acceleration by the way it gets away in traffic. A smooth stretch on the open road gives a revealing measure of its speed. The way it climbs the hills in high is an indication of its abundant power.

The new Ford will do 55 to 65 miles an hour, which is probably faster than you will ever need to go. Far more important is the way it rolls along at 35 and 40 and 45. This is your average driving speed and you can maintain it smoothly, easily, comfortably for hours in the new Ford.

## Reliability

The new Ford is reliable in performance because of its carefully planned simplicity of design and the enduring quality that has been built into every part.

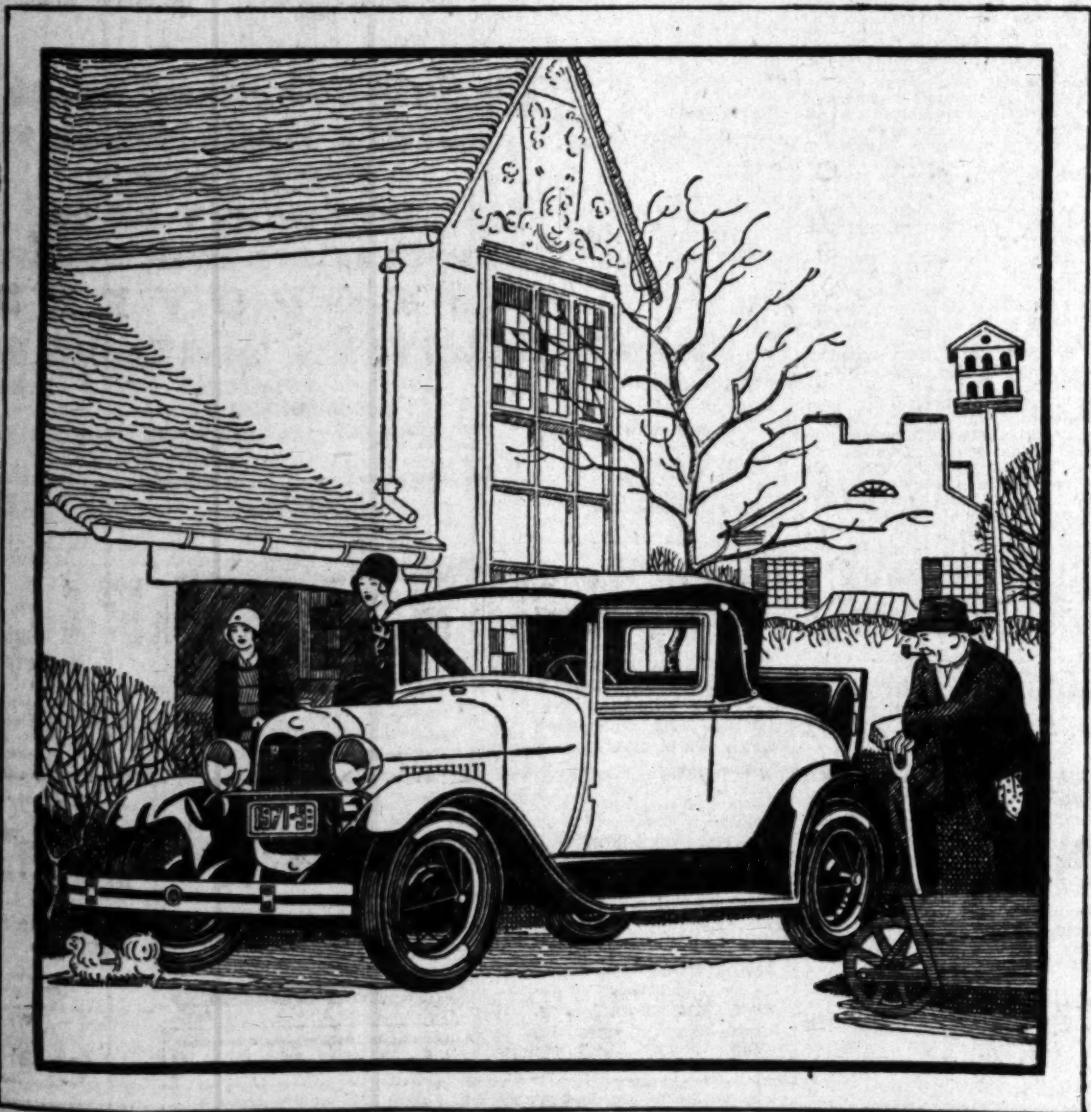

Throughout, it has been made to give you many thousands of miles of pleasant, enjoyable motoring at a minimum of trouble and expense. From every part of the world come letters from Ford owners commenting on this reliability, and giving specific data on unusual performance.

Thousands of the new Fords have been driven more than 50,000 miles in the past year. Some, used night and day, have passed the 100,000-mile mark. There is no telling how far they will go. The average life of the Model T was seven years. We believe this new car will do better than that.

## Economy

The new Ford is an economical car to own and drive because of the low cost of operation and up-keep. It averages more than 20 miles per gallon of gasoline and the cost of tires and oil is also low.

Low first cost, the security of a fair trade-in value, the availability

In addition, the subsidiary companies had outstanding on October 31, 1928, funded debt aggregating \$2,657,150 and preferred stocks aggregating \$27,421 shares.

Mr. J. Zellerbach, President of the Corporation, summarizes his letter as follows:

Business and Properties. Crown Zellerbach Corporation is the outgrowth of businesses founded over a half century ago, and with subsidiaries, is the second largest paper manufacturer in the United States, with assets of over \$105,000,000. Products of the Corporation include newsprint, sulphite and kraft wrapping paper, tissue papers, waxed papers, paper bags and fruit wraps and such products as solid fibre and corrugated containers, cartons, folding and stiff boxes, paper cans, oyster pails and the nationally known brands of Public Service Towels and No-Waste Toilet Tissue. Its wholesale divisions are agents for a full line of all grades of papers and kindred lines.

Properties include fee ownership and timber licenses and pulp leases of more than ten billion feet of timber in the United States and Canada; water power developments owned and leased of 63,600 h.p. capacity; hydro-electric power development of a present installed capacity of 25,500 k.w. and long-term contracts for 14,200 k.w. additional; pulp mills and paper mills having an annual capacity of 465,000 tons of paper; partly owned paper and board mills having an annual capacity of 86,000 tons of box board and box board products; converting plants; wholesale divisions.

Earnings. Consolidated earnings of the Corporation and subsidiary companies, for each of the last four fiscal years ended April 30, including earnings of the Crown Willamette Paper Company for the entire period adjusted to the fiscal year basis, based upon a statement prepared by Messrs. Lybrand, Ross Bros. & Montgomery, Public Accountants, from audited statements, were as follows:

	1925	1926	1927	1928	Four-Year Average
Net Profit before depreciation, depletion, interest and Federal and Canadian income taxes...	\$10,336,089	\$10,708,036	\$11,267,836	\$11,322,479	\$10,958,110
Net Profit after depreciation, depletion, interest and Federal and Canadian income taxes and after allowing for minority interests in Pacific Mills, Limited, based upon holdings as of April 30, for the years shown	5,820,704	5,561,848	5,861,985	5,790,959	5,713,874
Balance after deducting dividends on preferred stock of subsidiaries outstanding as of October 31, 1928...	4,136,176	3,877,319	3,997,458	4,106,432	4,029,347

The balance of net profits of the Corporation and subsidiary companies for the first half of the current fiscal year to October 31, 1928, based on book figures, after the payment of dividends on preferred stocks of subsidiaries, preferred and preference stocks outstanding, including this issue.

After payment of preferred and preference stock dividends, the balance available for the common stock, on the basis of earnings for the six months to October 31, 1928, would be at the annual rate of \$3,930,849, equivalent to over 92 per cent.

Dividend Record. The Corporation or its predecessor has an unbroken dividend record for a period of more than 20 years. From January 1, 1925, to April 30, 1927, the Common Stock received dividends at the rate of \$1.50 per share annually; thereafter at the rate of \$2.00 per share annually until June 30, 1928. As of September 1, 1928, a 5 1/2% dividend payable in Common Stock and a 20% dividend payable in Preference Stock was distributed. Since June 30, 1928, the Common Stock has received dividends at the rate of \$1.00 per share annually.

Purpose of Issue. Proceeds of this financing will be used to retire current indebtedness incurred in the acquisition of new properties and for other corporate purposes.

Management. The management of the Corporation is in the hands of men who have been responsible for the development and successful operation of its business. Officers of the Corporation are: Louis Bloch, Chairman of the Board; J. Zellerbach, President; M. R. Higgins, Chairman of the Executive Committee; Edward M. Mills, A. B. Martin, J. D. Zellerbach, Executive Vice-Presidents; H. L. Zellerbach, Vice-President. The Board of Directors consists of the foregoing, together with the following: J. H. Baruh, M. M. Baruh, Charles R. Blyth, Herbert Fleishacker, Henry C. Olcott, James H. Schwabacher, George S. Towne.

All legal proceedings incident to the amendment of the Articles of Incorporation and the issuance of this Preference Stock are taken subject to the approving opinion of Pillsbury, Madison & Sutro, Attorneys at Law, San Francisco. Offering is made subject to the issuance of a final permit from the Commissioner of Corporations of the State of California.

It is expected application will be made to list this Preference Stock Series B on the San Francisco Stock Exchange

## LOS ANGELES EXCHANGE

## Stock Prices React Under Selling Pressure as

## Uncertainty Marks Local Trading

General widespread liquidation characterized the resumption of the

week's operations yesterday on the Los Angeles Stock Exchange. With

one or two exceptions prices throughout the entire list turned lower as an

undertone of uneasiness swept through the trading. Hydraulic Brake,

Pacific Lighting and Southern California Edison scored the principal

advances and touched new high marks for the year. Los Angeles-First

National sold off 3/4 points to 136 1/2, and Security Trust and Savings,

6 points to 630.

Hydraulic Brake was particularly

strong and jumped 3 points to a

new all-time peak at 51 1/2. Edison

advanced a point to a new

peak at 50 1/2 and closed at 50.

The strength was attributed to the

recent announcement of sub-

scription rights. Pacific Lighting

achieved a new top at 73 3/8, up

1 3/8.

Rio Grande continued to lead the

activity in the oil list and slipped

back 1 3/4 to 38 1/2. Union of

California, trading briskly, reacted

to a point to 51 1/2, and the AS-2

point to 51 1/2, and the AS-2

point to 51 1/2, and the AS-2

point to 51 1/2, and the AS-2

## Here is What was Done to Give Our Members Profits In the Teeth of Opposition

On January 12th, we received the following wire from our San Francisco sales office:

MANY OF OUR SUBSCRIBERS FROM INFORMATION OBTAINED ELSEWHERE BELIEVE THERE IS TO BE BREAK IN MARKET AND ARE SOMEWHAT INCLINED TO GET OUT FOR TIME BEING STOP OTHER SERVICES HAVE SO ADVISED STOP IT WOULD BE VERY EMBARRASSING FOR US IF BREAK DID OCCUR AND WE WERE CAUSE OF THEM TAKING LOSS SUBSCRIBERS WOULD PREFER GET OUT OF MARKET ENTIRELY TEMPORARILY UNTIL PRESENT DANGERS ARE OVER.

Some financial advisory services and individual investors throughout the country yielded to these false danger signals.

## We Wired Our Subscribers To Stand Firm!

Since then U. S. Steel has sold at above 190—23 points higher; Union Carbide 222—likewise 23 points higher; Warner Brothers at 134—an 8 point rise; Canadian Pacific 254—14 points higher; New York Central 198—8 points higher and other stocks recommended by us have shown good profits for our clients.

Only one of many instances, this, of true profit-making service. Write, wire or phone for details contained in our free booklet "Taking Money Out of Wall Street." If you prefer, use this convenient coupon.

New York City

"Despite the increased service aid lines and the extension of new and untrel routes," the report, "our company timed its high on-time performance record of better than 99

cent throughout the year. The planes flew an aggregate of 1,000 hours and 4 minutes for a total of 948,600 miles. These flights were made at all altitudes, in all sorts of weather and with equipment ranging from the small biplanes used on the

Colorado division along the backbone of the continent to the fast passenger cabin planes of the Los Angeles-San Francisco service and the slow, heavy-flying planes operating between Wilmington, N. C., and Asheville, N. C. The Asheville-Avalon—the most diversified.

**CARRY 6794 IN YEAR**

A total of 6794 persons took passage with Western Air Express. The aggregate of 458,231 pounds of mail and 13,502 pounds and

ances of air express were patched in these planes. There were no serious mishaps and but nominal damages sustained to any equipment. No passenger employee was injured and no cargo lost or damaged throughout the year.

The report points out that in 1926 the company in co-operation with the Guggenheim Fund for the Promotion of Aeronautics opened the model passenger airway between Los Angeles and San Francisco.

quired the Pacific Airways Ma-  
Wilmington-Avalon line and a  
new equipment; laid plans for  
placed orders to equip a Los  
Angeles-Albuquerque-Kansas City  
line, together with the purchas-  
re-equipment for the

Los Angeles and Salt Lake City line. "Our air-mail contract between Los Angeles and Salt Lake City," said the report, "continues to be our source of greatest revenue, with a monthly return on this line of more than doubling during 1934."

**COMPANY INTRENCHED**  
The report predicts "a very  
substantial earning on each divi  
for 1929.

...to the  
...between Western Air-  
...and Fokker Aircraft Cor-  
...tion, the report sets out that  
...him of your larger stockholders  
...quired control in the Fokker  
...craft Corporation of America.  
...the explanation that this  
...an effort

Western Air Express could be rendered unable to procure satisfactory equipment by any combination that might oppose. Neither company owns any of the other company.

Referring to a financial statement in the report, the

The combined operating statement for 1928 shows gross revenue of \$1,417,504.23, divided as to distribution: expenses, \$896,726.43; profit, \$720,777.80, an earnings of \$168.28 per share on the \$100 par value.

## DR. McINNIS WILL ACCEPT PULPIT CALL

Resigned Dean of Bible Institute to Fill Supply Post at Long Beach

Rev. John Murdoch McInnis, resigned dean of the Los Angeles Bible Institute, will take over the pulpit of the Second Presbyterian Church of Long Beach as a supply minister on February 10, he announced last night.

There is nothing permanent about the Long Beach pastorate, Dr. McInnis said.

He plans to remain in that pulpit until the April meeting of the Los Angeles conference, and then make an extended trip east to investigate several offers he said have been made him by religious education organizations.

If eastern offers do not appeal he will return here, and probably to the Long Beach church, Dr. McInnis said.

The Long Beach pulpit was vacated a year ago by Rev. H. P. Buel when he came to Los Angeles as pastor of the Second Presbyterian Church. Rev. Charles Park of Riverside now is acting as supply minister of the beach church.

Dr. McInnis left the Bible Institute on December 31, 1928, after heading it as dean for three years.

His resignation was accepted by the institute's board of directors following the publication of a book by Mr. McInnis in which he is charged with having taken the stand in modern times.

The institute directors asserted that criticism of the book led to unfavorable reaction on the institute.

Dr. McInnis said that in the past three years a school program of tree planting has been carried out under the direction of Frank A. Boule, school superintendent-elect, who has turned over the work to Luke L. Gallup, assistant superintendent.

Playground and parking strips surrounding both old and new schools have been planted with trees and shrubs. Since the work was first inaugurated more than 16,000 trees have been set out and all show a splendid growth.

The complete outline of this work was presented by Boule at the luncheon yesterday.

Protests against the improvement of Locke avenue between Cudahy and Carnegie streets and of Sweetser avenue between Rosewood avenue and Beverly Boulevard are scheduled to be heard today by the City Council.

ROAD HEARING CONTINUED

Hearing of protests against confirmation of the assessments for the improvement of San Fernando Road between the city of San Fernando and Los Angeles was continued yesterday by the City Council to February 4, next.

TRAFFIC DEATHS INCREASE

Two Killed in Motor Accidents During First Twenty-eight Days of New Year

Motor traffic deaths here for the first twenty-eight days of this year totaled fifteen, almost one-third, the automobile killings for the same period last year, figures made public yesterday by the coroner's office.

In the first twenty-eight days of 1928 there were forty-two motor deaths, while there have been sixty-two so far this month. In the same period, killings by electric train accidents decreased from six to two, while steam railroad deaths this month have been four as compared with one for the same period of 1928.

Philip H. Whitman, a director for Mack Sennett Studios, was arrested last night charged with running down a woman in a safety zone.

According to the police, Whitman, who is 35 years of age, lives at 3205 Lowery Road, was speeding along Santa Monica Boulevard. At Kenmore avenue he is said to have run into a safety zone where ten persons were standing awaiting a street car. All jumped to safety excepting Mrs. Minnie Embrey, 48 years of age, of 1728 West Sixty-fourth street. She was badly injured.

# Tiger-Aztec Basketball Game to be Played Friday Night at Glendale High School

## DATE CHANGED FOR BIG TILT

San Diego State Boasting Strong Hoop Squad

Second-Place Quintet May Upset Loop Leaders

Occidental Home Games to be in Glendale Gym

Graduate Manager Phil Ellsworth of Occidental College made two surprising announcements yesterday on the Tiger campus which directly affects the Eagle Rock basketball team.

Hereafter all of the home games in the Southern California Conference will be played at Glendale High School instead of the alumni gymnasium of the Tiger institution, so that the large crowds can be more easily accommodated.

The San Diego and Occidental basketball tilt scheduled for Saturday night has been advanced one evening and will be staged at the Glendale prep gym Friday evening.

The Bengal quintet, safely perched at the top of the conference standings, with a clean slate of four victories and yet to suffer a defeat, is much in danger of losing its leadership Friday evening when the San Diego State Aztecs invade the city for a conference tilt.

The La Verne Leopards barely managed to split even on games with the Aztec varsity, and at that, the Leopards gave only one of its toughest battles to date, losing by a count of 43-33. San Diego now rests in second position to the Bengal and a victory over the Tiger would seem a crack at the championship, which otherwise the Eagle Rock squad will undoubtedly capture.

Two other conference tilts take place Saturday evening. Caltech meets La Verne at La Verne and Whittier faces Pomona at Claremont. The Leopards and Aztecs are favorites in these two contests.

## LOS ANGELES WOMEN LOSE

(Continued from First Page)

TS to win all three points in the final match.

Here are the results:

Mrs. Roy Green, Mrs. Dick Edwards (C) 3; Mrs. R. D. Dammann, Mrs. F. S. Hardin (L.A.) 4.

Mrs. C. W. Feltz, Mrs. F. S. Noel (C) 3; Mrs. W. W. Cook, Mrs. Harry Voorhes, Mrs. Charles Weimer, Mrs. E. S. Brown (L.A.) 3; Mrs. Hazel Conner, Mrs. V. S. Miller (C) 3.

Brentwood, with an outside chance to beat out both California and Los Angeles, put up a good battle to finish 4 points back of the winner, Mrs. Dan Jones, former California State champion who has been out of her team for some time, came back strong yesterday and with Mrs. L. B. Elliott, won 3 points for Brentwood.

The results:

Mrs. Dan Jones, Mrs. L. B. Elliott (B) 3; Mrs. Harry A. Water, Mrs. J. C. Owens (R.) 3; Mrs. R. W. West, Mrs. Paul Jones (R.) 3; Mrs. W. H. Carter, Mrs. A. C. Little (R.) 3.

Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

Winthrop won the Group One title in a walk. The 1928 champion defeated Lakeland in the final match yesterday, 6½ to 2½.

San Gabriel, which won its final match from Wilshire, 7 to 2, was second with a total of 60½.

The Fox Hills Country Club team's decisive defeat of Virginia gave the Calvary City club the championship of Group One of the eastern division with a total of 85 points.

Redlands, 7½ to 4½, and is still figured to win the championship, although authentic figures are not available.

Hacienda and Fox Hills will also play home matches on February 14 and 21 for the championship of the eastern division.

Following are the complete results of all matches played yesterday:

VICTORIA, 10½; RED HILLS, 1½; Mrs. Fleming, Mrs. Milligan (V.) 2; Mrs. G. W. Moore, Mrs. O. W. Moore (V.) 2; Mrs. Whitmore, Mrs. O. W. Moore (V.) 2; Mrs. L. B. Elliott, Mrs. J. C. Owens (R.) 3; Mrs. R. W. West, Mrs. Paul Jones (R.) 3; Mrs. W. H. Carter, Mrs. A. C. Little (R.) 3.

REDLANDS, 7½; HACIENDA, 4½; Mrs. L. B. Elliott, Mrs. J. C. Owens (R.) 3; Mrs. R. W. West, Mrs. Paul Jones (R.) 3; Mrs. W. H. Carter, Mrs. A. C. Little (R.) 3.

FOX HILLS, 9½; VIRGINIA, 2½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

WINSTON, 1½; Mrs. H. R. Erkes, Mrs. Arlie Kelly (B) 3; Mrs. Charles DeJany, Mrs. Charles Slater (R.) 3.

## RABBIT PUNCHES

THE "DEVIL" HIMSELF  
LOOK out! The Devil's got it! That was an overworked expression at Midwick on Sabbath afternoon when Rancho San Carlos was swamping the Midwick polo team.

The "Devil" was a slight chap in a red jersey who outgalloped and outthrew everybody in the field. He wasn't the leading scorer of the day, but he was the leading feeder.

He smacked the little white pill where Midwick riders weren't. He smote it into the clutches of other San Carlos riders, who booted it between the white posts. And almost every time the "Devil" fed it a little fellow behind the white posts waded a white flag.

The "Devil" rode like the wind and everywhere the "Devil" went a score was sure to follow.

If you haven't guessed it already the "Devil" was Tommy Hitchcock, the greatest polo player in this fair land of ours. It was probably just a spring gallop for Tommy, but he made the game a sensation in spite of the overwhelming score.

It was a \$100,000 show the natives saw at Midwick the other day, and Tommy Hitchcock was the big smoke. He combines all the good points of other players in his own game, and comes as close to making a polo ball talk as any player that ever breathed.

Even his spills look easy; he went off his horse's neck the other day like a guy pulling a fadeaway slide to second base. And he was up in a trice and ready for the dash to third.

They had a good crowd at Midwick Sunday, but I rather imagine that when Mr. Hitchcock returns later in the season it will be a turnaway.

Another Bunion Derby  
FROM NEW YORK comes the following from the irresponsible Cash and Carry Pyle under date of January 29:

"Clear the decks; get everything ready; I don't want any mistakes! I don't want any hitches; I just want you to have everything set. I want to have your schedule made out, because I am leaving tomorrow morning in my cruising coach for Los Angeles. It will take me a little while to get there because I am laying out the route of my second annual international transcontinental tour, and that means that I must stop in the cities along the line and arrange the details with the chambers of commerce."

"So in about four weeks, look out!"

"Paul, this year is a cinch. We are profiting by the mistakes made in pioneering the first race. We are going to have some of the greatest runners in the world in the race; the newspapers in the East are taking it seriously, and in addition to it being a great sporting event this year, it will be a financial success. . . . and an annual event. Nothing can stop it."

RICKARD'S "OTHER SIDE"  
TO GILBERT P. BOREMAN, attorney of this city, I am indebted for the following human interest incident about the life of the late Tex Rickard. As Mr. Boreman says "it reveals another side to his nature than the 'sporting side' on which so much stress has been laid by the biographers:

"In the chapel of St. Bartholomew's Episcopal Church in the town of Ely, Nev., stands a memorial dedicated to the memory of a little 5-year-old child, Bessie Rickard, adopted daughter of G. L. (Tex) Rickard and his wife, who died in 1907."

"On the end of one of the pews in the chapel of the church there is affixed a large brass plate of Gothic design on which is engraved:

"The pews in this church were given to the Glory of God and in Loving Memory of Bessie Rickard, 1902-1907."

"The record of the church—the parish register—contains the following:

"G. L. Rickard and wife of Ely, in memory of their adopted daughter, Bessie, gave the pews to the church at a cost of \$700. They were first used Christmas Day, 1908."

"I doubt if any one of the numerous biographers ever heard him mention the above incident. I can vouch for it because I happened to be living in Ely at the time, was Tex's personal attorney there, have attended the church, and have seen the memorial plate."

SMEAD JOLLEY SENDS BACK SEAL CONTRACT UNSIGNED

BY RUSSELL J. NEWLAND  
Associated Press Sports Writer  
SAN FRANCISCO, Jan. 28. (AP)—Big Smead Jolley, who is about two weeks smaller than a grown-up, remembers that he led the Cocks in hitting—also home runs—last season. So he has returned his contract, signed by the San Francisco Seals.

There hasn't been any quibbling, or b-a-r-gaining. Smead just sent back the contract with a laconic note to the effect that his swatting ability rated more attention—financially.

In other words, the Arkansas slugger wants the figures juggled a bit to increase their importance.

George Alfred Putnam, who is secretary for the Seals, said: "Smead made a great game for the 1928 champions, says that everything is all right. G. Putnam says that the Seals will pay Jolley a major-league salary this season."

Those who have watched Jolley perform, game in and game out, think that the scouts missed a few by not giving him a tumble. The big outfielder would be a riot in some of the crackpot parks of the big circuits.

Jolley is an easy-going giant who would barely wriggle an eyebrow if a mule kicked him. He joined the Seals in 1924 as a pitcher, but he was a pitcher did very well in the outfield. This is the first time he has ever dickered about his contract, so even G. Putnam was slightly incognito today. He said there wasn't any news. It took detecting to find out about Jolley.

2 up at the end of the first nine holes.

A large gallery watched the four-some in action and got a big kick out of the steady playing of Guest, who was over par on only one of the eighteen holes, and the brilliant performance of Hagen on the first nine.

Quite in contrast to the playing of the pros was the shooting of the scribes who had scores ranging from the high 70s on up beyond the 120 mark.

In the evening the newspaper men were guests of Rio Hondo at dinner, following which the annual election was held.

## DAVISCOURT

Take on Nick Lutze in Top Star Card at Olympic

scion expert from Chicago, whose battle months ago is still considered the greatest in the all-star card promotion. Lutze, 220-pound, will be the first to go, with Dave Daviscourt, 210, on the card, February 6.

Daviscourt was signed by the promoter yesterday. The fight here recently, and all of them have been rough, with the start to finish.

This will be Lutze's first meeting with Daviscourt here, and is expected to be as sensational as the one the Kanan had here last week with John Spelman, former Brown University football star.

Because Daviscourt uses about the same style of wrestling and the same holds as Ed "Strangler" Lewis, he is expected to adopt the same tactics against the Kanan, that he used in his championship fight with the former champion. Daviscourt, however, will probably enter the ring a favorite to win. His weight and strength are expected to prove too much for the young Chicago knacker.

## BERGER SIGNS 1929 CONTRACT

(Continued from First Page)

The big slugger is "hot" for the chance to cover the initial card and he'll handle the job in the best possible way he can. For the past few months he has been working out with a conscientious young athlete who has been working out with him, and he is now in the best of health and ready to "put out."

Secretary Boots Weber also announced yesterday that the fight card for the 1929 season will be a good one, with the best of the city's fighters on the card. He said that the card will be a good one, with the best of the city's fighters on the card. He said that the card will be a good one, with the best of the city's fighters on the card.

## SONNENBERG FLOPS HANSON IN MAT GO

KANSAS CITY, Jan. 28. (AP)—"Dynamite Gus" Sonnenberg flopped his world's heavyweight championship by winning a wrestling match in straight falls last night from Charley Hanson of Omaha.

The Bostonian took both matches with headlocks, taking 12-0 for the first and 14-0 for the second.

## RICKARD HAILED ABE ATTELL AS GREATEST SCRAPPER OF ANY WEIGHT AND ANY CLASS

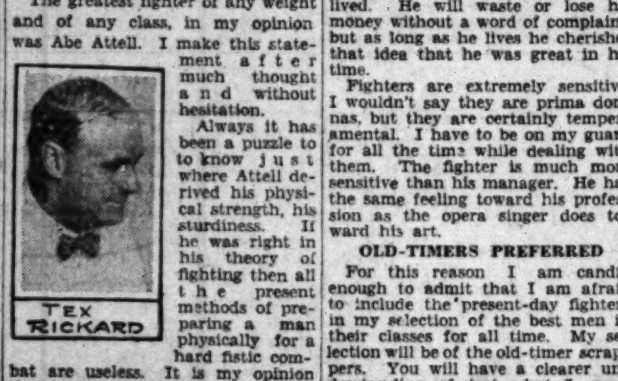

This is the only autobiography written by Tex Rickard. It was prepared in collaboration with Benman Bulger, for publication exclusively for The Times and The North American Newspaper Alliance. Shortly before Rickard's death he discussed with Bulger plans for publication of this memoir in book form. Following is the nineteenth installment of the autobiography, which is appearing in daily chapters.

BY TEX RICKARD  
(In collaboration with Benman Bulger)

Written exclusively for The Times and the North American Newspaper Alliance.

(Copyright, 1928, by North American Newspaper Alliance)

The greatest fighter of any weight and of any class, in my opinion was Abe Attell. I make this statement, a fact I never had any doubt about. He was a fighter of the old-time scrappers. He was a fighter of the old-time scrappers. He was a fighter of the old-time scrappers.

TEX RICKARD

I have been asked to name the greatest fighters in their respective classes of all times—that is, the greatest in my opinion.

You have no idea how difficult it is to be frank in answering that question. I will attempt it later.

In the mind of the ordinary spectator there is a feeling that prize fighters are simply money grubbers—that all they want is the purse. I have heard many fight fans say that boxers had no sentiment other than to get the money. They were never more mistaken in their lives.

There is nothing quite as dear to a boxer as a championship or the memory that he leaves with the fans. He wants to be considered the greatest in his class that ever lived. He will waste or lose his money without a word of complaint, as long as he lives he cherishes that idea that he was great in his time.

Fighters are extremely sensitive. I wouldn't say they are prima donnas, but they are certainly egomaniacs. I have to be on my guard for all the time while dealing with them. The fighter is most sensitive than his manager. He has the same feeling toward his profession as the opera singer does toward his art.

For this reason I am candid enough to admit that I am afraid to include the present-day fighters in my selection of the greatest in their classes for all time. My selection will be of the old-time scrappers. You will have a clearer understanding of just what I mean when I tell of the early arrangements for the fight between Willard and Dempsey.

Now take Jack Dempsey, for instance. There is a big as proud of his record as Caruso was of his singing. In my mind there is no doubt that Dempsey is the greatest heavyweight fighter of his size that ever lived. It is almost impossible to consider him capable of the things he does when one looks at him in street clothes. He is slender, lithe and comparatively light.

But, going back to the former big lights in fighting, it is my opinion that Jim Jeffries was easily the greatest of all the heavyweight champions. In saying this I have considered John L. Sullivan, Jim Corbett, Jack Johnson, Jess Willard—all of them.

JEFFRIES HAD EVERYTHING. For a big man Jeffries had everything that a fighter needs. He had the strength, the speed and the bulldog tenacity. Jeffries was much faster on his feet than many imagine. That he was game was proved time and time again. His fights with Sharkey and Corbett showed that.

Jeffries was fundamentally honest. He had the welfare of his friends at heart all the time. No man ever lived who had a greater desire to make good than he. He was a man of his word and his claims and hopes of his backers.

The charge, sometimes heard, that Jeffries laid down to Johnson or that he arranged for Johnson to lay down to him and then got crossed is so ridiculous to me that I have to laugh. I was with him day after day during the preparations for the Johnson fight. No man was ever more confident of winning. As I related in a previous chapter, Jeffries was so absolutely sure of winning that he insisted on having the purse divided sixty-forty instead of fifty-fifty. Jack Johnson would have been satisfied to let it go on an even basis.

Yes, of the old-time heavyweights I am sure that Jeffries was the greatest. I will discuss the others later.

(Next—An All-Star Champion List)

## NEWSBOY BROWN WANTS GO WITH SPEEDY DADO

Newsboy Brown expects to force Speedy Dado, Filipino flyweight, into a championship battle after he, Brown, gets through licking the veteran, Delos Kid Williams, at the Hollywood Legion Stadium Friday night. Dado is fighting Ernie Peters soon and if the Filipino wins the verdict the bout with Brown would be a natural among the little men. Kid Williams, however, may upset the plans of Brown when they meet Friday. Williams, a sturdy veteran, took a bout recently on short notice with the Italian champion, Kid Francis, and made a corking showing.

Both Brown and Williams are punchers and the fight may end in a knockout.

## DEMPEY'S TRAINING AGAIN HELD UP BY PROMOTION WORK

MIAMI BEACH (Fla.) Jan. 28. (AP)—Business prevented Jack Dempsey from entering upon his training program today.

The former heavyweight champion, who stepped into the job of promoting the Ernie-Stribling fight after the death of Tex Rickard, had laid his plans to start road work today with the implication that he might return to the ring if he found through his workouts that his body was in condition.

At noon today, however, he was forced to abandon his plan until tomorrow at least, because of a business conference at Palm Beach. Dempsey and other officials of Madison Square Garden Corporation went to Palm Beach to discuss ticket reservations for the fight, but returned tonight.

Dempsey was informed today that "Pa" Stribling had written to him here that his son will come by train to Palm Beach on Tuesday, but that he will meet his plane there and fly here Wednesday.

## Prepare for Carnival at Big Pines

Preliminary construction for the third annual winter sports carnival, sponsored by the Los Angeles Junior Chamber of Commerce, to be staged this year at the Los Angeles county Big Pines Recreation Camp, February 22, 23 and 24, next, were launched yesterday with the first work on the ski jump being specially built for the event.

Aided by a corps of thirty men, Earl A. Mitchell of the Denver Ski Association, one of the country's foremost authorities on ski jumps, roughed here by the junior chamber to supervise the building of the Big Pines jump. It is on the ground to speed the work.

Jumps of more than 200 feet will be possible from the ski runway being constructed at Big Pines, according to Dr. Alex J. Link, chairman of the winter sports carnival committee. This will make the jump here among the longest ever built, he says.

## REFEREE DAVE BARRY BARRED IN MICHIGAN

DETROIT, Jan. 28. (AP)—Dave Barry, referee, who made the "long count" in the second Dempsey-Turney fight in Chicago, will not be allowed to referee in Michigan. James Brown, chairman of the State Boxing Commission, announced today. The action was occasioned by plans to have him officiate on an amateur card in Grand Rapids, February 8.

# This Chart Shows

THE chart above, drawn by C. F. Lienesch, automotive engineer, illustrates an actual power test of a popular make car with high compression engine.

The short curve records power developed with white gasoline. Note that a maximum of 300 pounds per square inch is exerted on piston head at maximum performance, and that effective horse power is not over 108.

But see what happens when you fuel the same engine with Union-Ethyl. 500 pounds pressure on piston head at maximum performance. 120 effective horse power. A smoother, straighter, longer stroke that eliminates vibration.

And—for extra measure—two vital improvements that the chart doesn't show.

1. All knocks eliminated. No more "ping ping" in your motor when climbing steep hills—when moving slowly in high gear—or when you push the throttle to board in traffic.
2. And best of all—mileage is increased to the maximum that the designer of your car intended.

Why Wait?

Don't put up any longer with low compression results from your high compression car.

Fuel with Union-Ethyl—see that your spark is properly advanced—then obtain full benefits of New Advanced Spark Power. But remember—only Union-Ethyl guarantees you this added power and mileage.

Union-Ethyl Gasoline

Breakfast  
Baked Apples and Cream  
Poached Eggs and Cornbeef Hash  
Fig Jam  
Coffee

Luncheon  
Grilled Brains with Noodles  
Potato Croquettes  
Mashed Cottage Salad  
Baked Bananas, Custard Sauce  
Tea

Dinner  
White Bean Purée  
Pork Chops and Fried Apples  
Buttered Peas  
Lettuce and Tomatoes  
Baked Dressing  
Wine Pudding  
Coffee

STEILED BRAINS WITH NOODLES  
One-half tablespoonful of butter, one-half cup of tomato puree, salt, paprika, one tablespoonful of chopped parsley, a dash of Cayenne pepper, one cup of brains.

Wash the brains thoroughly, pour off the fat, melt the butter, add the flour, stir in slowly the tomato puree and cook, stirring constantly, until thickened, add the seasonings, and the brains which have been cut in small pieces. Heat and serve over one-half a package of noodles, which have been cooked and drained.

MOLDED COTTAGE CHEESE SALAD  
Mix one cupful of dry cottage cheese with a tablespoonful of this dressing, two drops of tobacco sauce, a sprinkling of salt, and a tablespoonful of chopped parsley; squeeze the liquid from two pintatoes, press them into a puree strainer, add oil.

## HEALTH ADVISE Dr. Frank

Dr. Frank will examine patients in the case of the Los Angeles Times.

RECTAL DISORDERS  
The last few inches of the intestine, termed the rectum, are subject to a number of disorders, such as hemorrhoids, piles, fissures, inflammation, proctitis, neuritis, etc. There are many causes for these troubles, but they can produce much suffering and waste of time and vitality.

Hemorrhoids are simply varicose veins of the rectum. They become enlarged because of some inflammation with the normal flow of blood away from the rectum. The veins are especially liable to enlargement because they do not contract the usual valves to keep the blood from flowing backward.

The blood supply of the rectum is connected very directly with the portal circulation of the liver. When the liver becomes sluggish or overworked the rectal veins must necessarily be enlarged. It is therefore necessary that all liver disturbances be cured before one can expect relief from the congested rectal circulation.

Other conditions which may produce hemorrhoids are a prolapse of the abdominal organs, excessive use of cathartics, a long-continued standing position, straining while lifting, excessive intestinal constipation. With women the cause may be from enlarged displaced uterus, the pressure from pregnancy, indolent habits of living, etc. It is known that fully 60 per cent of all women suffer from some prolapse of the abdominal organs.

A fissure of the rectum is a break in the membrane caused by long-continued constipation or the irritation of poisoned feces or the stretching, tearing or lumpy stools. Sometimes the internal irritation and infection may be so great as to produce a fistula from the inside of the rectum out through the skin of the buttocks. This is called a fistula and can only come from a rectal neglect of rectal disorders.

**KEEP LOOKING YOUNG**

The secret of keeping young is to feed young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil as a substitute for castor oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c, 30c and 60c.

Regardless cereal  
means a fight

A little sweetening  
away with an awful  
lot of trouble

Children's meals should not be  
degraded. One of  
the most important of all diet-  
eticians is to get children to  
eat healthful, health-  
ful food. Ranking among  
the best of foods for children  
is the original Shredded Wheat,  
and, yet, as an eminent  
dietician recently stated it,  
"Shredded cereal means a fight."

It is not on to advise mothers  
to make these necessary foods  
and even looked forward  
to their children through intelli-  
gence in itself in the most perfect  
and judicious sweetening  
to furnish energy for active  
play, and best of all it makes  
the necessary foods so easily  
eaten.

Children should not dread their  
meals. The wise mother or nurse,  
in the use of sugar, can  
enable children to enjoy all kinds  
of healthful cereals, fruits, veg-  
etables and milk. Properly sweet-  
ened cereals also encourage the  
child to eat more milk. Sugar is  
the ideal flavor. The Sugar  
Company.

## PRACTICAL RECIPES

Requests for recipes and information  
pertaining to the proper preparation and  
arriving of food, are invited in this  
column every Tuesday. Address: The  
Safeway Food Company, 434 Arden Avenue,  
Glendale, Cal.

**CHEF WYMAN'S ANSWERS**

**PANCAKES**

I. W. W., Los Angeles, Cal.: Sift  
together two cups of flour with  
four level teaspoons of baking  
powder, half a teaspoon of salt  
and two teaspoons of sugar, mix  
into this the well-beaten yolks of  
two eggs and three-quarters of a  
cup of milk, beat until smooth,  
add the well-beaten whites of the  
two eggs and two tablespoons of  
melted butter, add more milk if nec-  
essary to make a medium batter,  
beat for five minutes and drop by  
spoonfuls on a well-greased griddle.

**POLISH GOULASH**

Mrs. S. Beverly Hills, Cal.: Place  
in a saucepan three tablespoons of  
butter, or shortening, heat, add  
one peeled and sliced onion and  
cook until brown; add six cubes of  
brown fat over, add three level  
tablespoons of flour and cook  
until brown, add one crushed clove  
of garlic and a kitchen bouquet  
made by tying in a bundle one  
stalk of celery, one bay leaf, two  
whole cloves, a piece of a lemon  
and two branches of parsley, season with  
salt, and three tablespoons of  
paprika and half a cup of boiling  
water, cover tightly and simmer for  
three hours, adding more boiling  
water as the broth is reduced.  
Twenty minutes before serving add  
half a cup of seedless raisins  
and one tablespoon of vinegar,  
place on a hot platter, sprinkle with  
finely chopped parsley and serve  
with spatzel.

**SPATZEN**

Sift one cup of sifted flour with  
a teaspoon of salt, one tea-  
spoon of paprika and a few  
grains of nutmeg, stir into this slowly  
three-quarters of a cup of water  
and beat hard for five minutes,  
add one egg and beat again; drop  
by tablespoons in boiling salted  
water and boil for ten minutes. Lift  
out, drain on a cloth, heat two ta-  
blespoons of butter in a sauce-  
pan, add one finely chopped onion  
and cook until a golden brown. Add  
the spatzen and brown on both  
sides.

**CHOCOLATE ANGEL FOOD CAKE**

C. L. H., Pasadena, Cal.: Beat the  
whites of eleven eggs with half a  
teaspoon of salt until frothy, add  
one teaspoon of cream of tartar  
and beat until stiff, but not dry;  
sift one and one-half cups of  
sifted sugar, five times, measure  
and fold into the beaten whites;  
sift one cup of pastry flour with  
two tablespoons of ground un-  
sweetened chocolate or cocoa five  
times. Fold into it the egg mixture;  
add one teaspoon of vanilla, pour  
into an ungreased tube pan, place  
in a warm oven, bake for twenty  
minutes, slightly increase the heat  
and bake until the cake settles even  
with the top of the pan and re-  
bounds from the touch of the fin-  
ger. Remove from the oven, place  
on a cake rack and allow to set un-  
til the cake loosens from the pan  
by itself.

**TARTAR SAUCE**

L. M. B., Inglewood, Cal.: Note—  
In your letter you did not say which  
tartar sauce you wanted; there are  
two, hot and cold, so I am giving  
you both of them. For the cold tar-  
tar sauce add to one cup of  
mayonnaise two tablespoons of  
finely chopped parsley, one table-  
spoon of finely chopped capers,  
two tablespoons of finely chopped  
chives (or the tops of young green  
onions), one tablespoon of tarragon  
vinegar, and sometimes, chopped  
sweet pickles are used.

**TAMALE PIE**

Mrs. F., Los Angeles, Cal.: Stir  
two cups of cornmeal into six  
cups of salted water and cook  
for five minutes, pour into a double  
boiler and cook forty-five minutes,  
heat two tablespoons of olive oil  
in a sauce pan, add one sliced on-  
ion, one chopped clove of garlic and  
two tablespoons of chopped par-  
sley, cook until the onion is golden  
brown, add two pounds of round  
steak cut in small cubes and stir  
and cook until well browned. Add  
two cups of strained tomatoes,  
two tablespoons of chili powder,  
that has been dissolved in a little  
cold water, twelve ripe olives, twen-  
ty-four seedless raisins, a season-  
ing of salt and paprika. Cook un-  
til the meat is tender, adding a lit-  
tle boiling water when necessary.

**Music Company**

**Lists New Heads**

On the eve of his thirty-seventh  
anniversary of being in business in  
Los Angeles, Chas. Dow, gen-  
eral manager of the Fitzgerald Mu-  
sic Company, announces the ap-  
pointment of Taylor C. White as  
general sales manager of its stores in  
Los Angeles and Glendale.

R. R. Pittenger, recently was ap-  
pointed manager of the piano divi-  
sion, and Edward L. Hayes, man-  
ager of the phonograph and radio  
division. Walter David, for six  
years manager of the educational  
division, remains in that capacity.

An interesting comment in regard  
to this company is that it was  
founded in 1892 by James Taber  
Fitzgerald, who since has been ac-  
tively its head.

Announcement also is made of  
appointment as agent for the Ma-  
jestic radio.

**BAR TESTS TO BE HELD**

Examinations for Admissions Will  
Begin Today at City Hall

The State Board of Bar Examin-  
ers will conduct quarterly tests  
for admission to the bar today, to-  
morrow and Thursday in the rooms  
of the City Civil Service Commis-  
sion at the City Hall. Today and  
tomorrow the examinations will be  
written and on Thursday they will  
be oral. Approximately 185 law  
students have made application to  
take the examinations.

Fifteen attorneys from other  
States will appear before the ex-  
aminers Friday in connection with  
their application for admission to  
the California bar. John E. Bibb,  
chairman of the examining board,  
will preside over the examinations.

## SAFEGWAY STORES

DISTRIBUTION WITHOUT WASTE

## A Meeting that Means Much to Southern California

The annual meeting of Safeway executives is being held in Los Angeles this week. From all over the West, the Middle West, South and Southwest, and East to the Atlantic seaboard, 150 of the keenest minds, engaged in the distributing of foods in the United States, are gathered here to discuss problems of vital interest to every family in the vast territory we serve. These men represent about 3,000 stores and markets doing a business at the rate of approximately \$180,000,000 annually.

At this meeting, decisions will be made involving the expenditure of millions upon millions of dollars during 1929. The important thing to Southern California is, that a very large part of these many millions will be spent right here in this section for locally grown and manufactured food products.

As a result, during 1929, hundreds of carloads of California

grown citrus and deciduous fruits, nuts, farm and garden products, and canned and manufactured foods of all kinds will be distributed to consumers, through Safeway and affiliated stores, from the Atlantic seaboard to the Hawaiian Islands and from the Mexican border to Alaska and Canada.

Safeway is the largest individual buyer of California grown and manufactured food products in the West. Our distributing facilities are so large and cover such a vast territory that our purchases in California have come to constitute a goodly percentage of the income which this state derives from its farms, orchards, gardens, and food manufacturing industries. Essentially a California concern, Safeway is proud of the part which its vast facilities enable it to play in the development of this great state and the West as a whole.

# Hunters Wipe Out 2000 Jackrabbits in Drive on Desert Near Rosemond

More Than 2000 Jackrabbits, Driven Before a Skirmish Line Extending a Mile Across the Desert, were killed Sunday near Rosemond by 150 men and women armed with shotguns acting under the direction of L. S. Neville, chief deputy of the Horticultural Commissioner's office. Many of the jacks were killed by the guns as the line advanced; the remainder were clubbed in wire corral into which they were driven. At left above are Dorothy Carr and Helen Gehr with part of the kill; at right, the jacks beginning to arrive at corral. (P. & A. photos.)

"Moon Power" was Utilized in Installing Giant 303-Foot Span, part of the largest highway bridge over the deep water channel of San Francisco Bay. The span was towed into position at high tide and gradually dropped into place as the tide receded. This photo shows manner in which the big span was towed from mainland to gap. (P. & A. photo.)

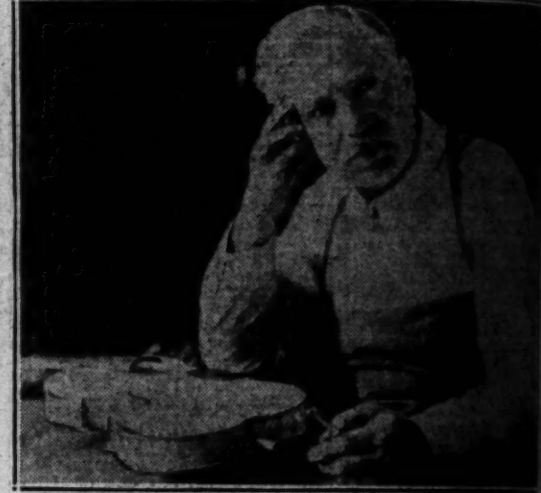

Here Once More—Capt. George Fried, commander of the S.S. America, has a habit of being in the vicinity when other vessels are in distress. Three years ago he rescued the crew of the sinking Antioch in midocean, and a week ago he took off the crew of the sinking Florida in an angry sea. (A. P. photo.)

The Latest Photograph of President-elect and Mrs. Hoover is the one presented above, taken during a trip of inspection of the Penney estate at Belle Isle, near Miami, Fla., where Mr. Hoover is spending a vacation of several weeks. (P. & A. photo.)

Forgetting the Cares of State—Admiral Nicholas Horthy (left) and Count Stephen Bethlen, two of Hungary's most famous statesmen, are caught by the cameraman as they tramped through the snow during a hunt in Northern Hungary a short time ago. (P. & A. photo.)

Manuscripts Disclosing the Secrets of the greatest violin-maker the world has ever known were found in a drawer of an old piece of furniture in a Bergamo (Italy) antique shop. Fortunate cabinet maker who found papers. (A. P. photo.)

Gabby'll Bring Bride With Him when he reports for spring training with the Chicago Cubs at Catalina Island next month. Yep, it's Gabby Hartnett, the Cubs' star-catcher, with Miss Martha Marshall, whom he married yesterday at Chicago. (P. & A. photo.)

Flawless Beauty is possessed by the Marquise de Ossa Maury, according to Cecil Beaton, noted English artist, who will paint her as ideal English type. (P. & A. photo.)

Only Eight Oranges Out of Every 100 shipped out of Southland travel less than 1000 miles to reach consumer, estimates recently made by growers' organization reveal. Approximately 60 per cent travel between 2000 and 3000 miles. Marjorie Berlinger with tourist fruit. (A. P. photo.)

"Man Without Country," Charles S. Knight, 50, has been in county jail at Cleveland, O., four months as United States and Canadian authorities consider his status. (P. & A. photo.)

Broken in Health, Lloyd George, former Premier of Great Britain, is aboard the yacht Sabrina on an extended cruise in the Mediterranean Sea. (A. P. photo.)

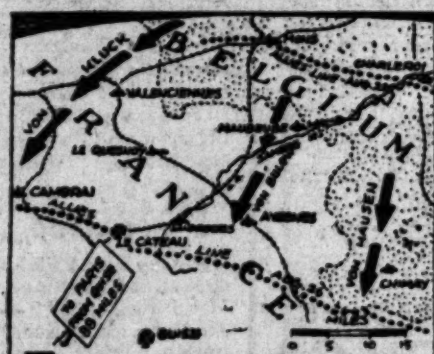

Something New in the world of pets is introduced by Miss Katherine Clark of Philadelphia, who recently appeared in public with a dog dressed in a coat and hat. (A. P. photo.)

## HIGH LIGHTS IN HISTORY 1250

The Story of the World War XX—Rear Guard Actions.

by J. CARROLL MANSFIELD

BY AUGUST 28, 1914, THE GERMAN ARMIES WERE POURING INTO FRANCE FROM BELGIUM, HOTLY PURSUING THE RETIRING FRENCH AND BRITISH. THE SWIFT PLANKING MARCH OF VON KLUCK IN THE WEST THREATENED TO ENVELOPE THE SMALL BRITISH FORCE HOLDING THE MOST EXPOSED POSITION ON THE EXTREME LEFT OF THE ALLIES' LINE.

AUGUST 26, THE GERMANS OVERTOOK THE BRITISH AT LE CATEAU. HERE THE BRITISH, GREATLY OUTNUMBERED, MADE A GALLANT STAND, BUT WERE FORCED TO RETREAT AFTER BRIEFLY RETARDING THE GERMAN ADVANCE.

ON THE 29TH THE FRENCH 5TH ARMY FACED ABOUT AT QUINE, 15 MILES SOUTH OF LE CATEAU, AND STRUCK BACK AT VON BULOW'S 2ND GERMAN ARMY TO RELIEVE THE HARD-PRESSED BRITISH. THE FRENCH RETIRED AFTER INFLECTING SEVERE LOSSES UPON THEIR PURSUERS.

THESE SHARP REAR GUARD ACTIONS LAYED THE GERMAN PURSUIT FOR A TIME AND THE RETREAT OF THE ALLIES WAS NOT SO RAPIDLY AS BEFORE. TO EXTEND THE PLANK FURTHER TO THE WEST TO THE VON KLUCK, 20TH FORMED A NEW LINE, 6TH, UNDER GEN. JOURY, COMPOSED OF TROOPS DRAWN FROM OTHER PARTS OF THE ARMY.

WEDNESDAY MORNING.

ROLL MANSFIELD

QUICK RELIEF FOR COLDS SINCE 1889

**GROVE'S ROMO QUININE**  
LAXATIVE TABLETS

**NO MATTER** how carefully you drive at night, ordinary headlights do not fully protect you.

When you round a corner or curve they shoot off into space, leaving you temporarily helpless in the dark. Dangerous for you! Dangerous for your family and friends! A constant source of mental strain!

But now a lamp has been discovered that corrects this situation. Mounted between headlights and slightly lower, it automatically responds to the slightest touch of the steering wheel and turns faster than the wheels of your car. Thus every turn is brightly lighted before you make it.

**Makes Night Driving Safe**

With this lamp, called Pilot-Ray, you drive with confidence. You protect yourself and family against the rising tide of accidents which threatens even most careful drivers. (Over 100,000 accidents with 2782 killed in California alone last year.)

**Drives Faster Without Fear of Accident**

"Nerve strain is lessened, too," according to motorists already using Pilot-Ray. "And" they add, "you can drive at least ten miles an hour faster, yet with more security than before."

PILOT-RAY

COUPLE DEAD IN DUAL TRAGEDY

Wife Stabbed and Husband, Border Officer, Shot

Plans Laid Out in Message Mailed to Father

Bodies Discovered in Room at Hotel Here

True to his plan, which police say was set forth in a letter he wrote to his father out-of-town last Saturday, Richard L. Boggs, member of the border patrol of the United States Immigration Service, stabbed his wife through the heart and then killed himself with a bullet through the head. This was the conclusion of the police yesterday following discovery of the bodies in a room of the King Edward Hotel.

The tragedy, as reconstructed by Detective Lieutenants Kynett and Corstul, occurred early Saturday night. The bodies were found yesterday morning.

**FATHER TELEPHONES**

While the detectives were at the hotel working on the tragedy, a telephone call came from Lebec, saying that Boggs's father, Richard Boggs, had received a letter from his son mailed in Los Angeles Saturday

NO HEART FOR PRISON LIFE

Two weeks was given George S. Barron, once a real-estate dealer in Los Angeles, in which to begin payment on a fine of \$10,000 assessed yesterday by United States District Judge McCormick for violation of the National Bankruptcy Act. The court at first gave the defendant a sentence of eighteen

months in Federal prison, but the sentence was suspended when it was shown that Barron was afflicted with heart disease.

It is charged that Barron concealed assets amounting to \$100,000, said to have been transferred to his son, J. L. Barron, while bankruptcy proceedings were in progress.

Saturday search for them was started. Boggs was about 35 years of age and was well liked by his brother officers in the service.

The bodies were removed to the County Morgue pending the arrival of the father from Lebec.

**HUSBAND IN TOILS**

After Alimony Settlement Wife Has Him Arrested on Assault Charge

Mrs. Ethel McArdle was convicted that only a term in jail would do her husband, James A. McArdle, any good.

When Superior Judge Rosenkrantz found a way to collect Mrs. McArdle's alimony without sending her husband to jail, his wife swore out a warrant in Huntington Park charging him with assault and battery. He was arrested as he left the courtroom.

McArdle told the court he is unable to work, but had \$7500 in separate property tied up by his divorce proceedings. Judge Rosenkrantz ordered his trustees to pay McArdle \$80 a month for the benefit of his

CANADIAN POET TO SPEAK HERE

Katherine Hale Booked by Friday Morning Club

Other Notables Scheduled for Later Dates

Distinguished Group Heard by Catholic Women

**BY MYRA NYE**

Katherine Hale, a well-known Canadian poet, will tell of the fascinating, almost medieval life that exists in the Province of Quebec, in her lecture before the Friday Morning Club this week. Her subject will be "Legends and Chansons of French Canada."

Beginning with this program, the coming month is replete with promise. Among others of note who will appear at the formal meetings each Friday are Donald Baxter MacMillan, American explorer, commander of the Crocker Land expedition, the Hudson Bay expedition and the one to Baffin Land in 1918. He has made eleven polar voyages, the last one of which he was leader being the Rawson-MacMillan Baffin Land expedition. Mr. MacMillan is coming on from the East to give this lecture on February 15, next.

**CRITIC TO SPEAK**

John Mason Brown, associate editor and dramatic critic of the Theater Arts Monthly, a free-lance writer for the Boston Transcript, the New York Times and the Saturday Review of Literature, will speak on "The Pioneer Theater." On February 22 he will review the history of the theater in the United States between 1800 and 1850, presenting the story of the stage and the western frontier, the saga of the Mississippi showboats whose actors left behind the security of the Atlantic Coast to troupe through the wilderness and present their quaint old dramas before audiences that never had seen a play before.

**ANALYSIS OF OPERA**

Dr. Frank Nagel on February 8 will present his analysis of the opera "Werther" by Jules Massenet. Distinguished artists who will assist are Thaddeus Harvey as Werther; John Claire Monteth as Albert; Leonore Ivy as Charlotte, and Elodie Kirkpatrick as Sophie.

Hamilton Garland will be the luncheon speaker Friday.

Dr. Dorothea Moore, chairman of the committee on art, will preside at the noon luncheon today when May Gearhart will discuss "Posters as an Example of Modern Art." During a recent trip abroad Miss Gearhart acquired a fine collection of foreign posters, which she will exhibit.

**Catholic Women**

A distinguished group of speakers gathered with the presidents and officers of women's organizations from eight counties in the Diocesan Council of Catholic Women at the Billmore Saturday, when they conducted their quarterly conference. The conference itself was significant in its evidence of past achievement and its indications for further work with the slogan: "For Home, Country and God." This was the subject of the chief speaker, F. P. Woelner, professor of education at U.C.L.A.

Rt. Rev. John J. Cantwell, D. D., bishop of Los Angeles and San Diego, was the honored guest. He spoke briefly, introduced by Mrs. Vincent A. Rosseter, Orange county president.

"The home is the groundwork of civilization," said the bishop, "and only as it is preserved is civilization kept intact. The spiritual campaign upon which you women are entering is the greatest campaign of all." He added that the great necessity of all service is to know how closely allied are the three named in the slogan: "Home, Country and God."

Mrs. Rose Roy, who is the diocesan president and who presided with Mrs. Rosseter, spoke of the work of the sisters of the various orders. More than half a hundred of them were present.

"Reverence and appreciation prevent my presenting them to you," said Mrs. Roy, "but I want you to know a little of their beautiful work."

She told, for instance, of the work in the Convent of the Good Shepherd, where 100 per cent of the girls cared for by the sisters otherwise would be wards of the county. Mrs. Roy deplored the fact that such institutions are obliged to pay taxes, telling of the dismay of the sisters last year when they found that they must pay \$5000 in taxes, which greatly hindered their work.

"California is the only State that permits such taxation," she added.

Other speakers and those sending messages to the council included: Judge May Lahey, Judge Scott of the Juvenile Court, who gave first-hand information on the results of such work as the women are doing in reclaiming delinquent boys and girls; Mayor Cryer, who brought greetings to these women of the Southland; William M. Byrne, Rabbi Magnin, Councilman Bonelli, Chief of Police Davis, County Supervisor Wright and Dr. Joseph Sullivan of Loyola College.

Miss Bunola Kucker, dramatic soprano and soloist of the Holy Trinity Cathedral in Paris, will be presented by Dr. Minnie M. S. Proctor in a program of songs at the meeting of the Sopranist Club today at 12:30 o'clock, in the music room of the Billmore, with the president, Amelia F. Johnson, presiding.

Miss Kucker will sing three numbers: "Aria," "L'ami du Corne Béné," by Secchi; "You in a Gondola," by Clarke, and "A Heart That's Free," by Robyn. Frank Merriam will speak on "Legislative Measures." Dr. Proctor will present the attendance prize.

Peggy Halloran, Ida Wells and Florence Woodhead will be hostesses of the day.

Members of the South Side Ebell Club will be entertained at their next meeting on Thursday by the Wednesday Morning Club. Mrs. John Stewart Taylor, district chairman of the federation, will give an address.

**HEARING CONTINUED**

Hearing of protests against the ordinance of intention for the improvement of Topanga Canyon avenue between Roscoe and Ventura boulevards was continued yesterday by the City Council to February 5, next.
